Classic Bach:

Bach's Famous Choir Michael Maul, 2018 The musical social and political history of the renowned St Thomas School and Church In the seventeenth and eighteenth centuries the cantors of the St Thomas School and Church in Leipzig could be counted among the most significant German composers of their times But what attracted these artists from Seth Calvisius to J S Bach to Johann Adam Hiller to the music school and choir and inspired them to explore new repertoire of the highest standing And how did the cantors influence the musical profile of the school a profile that often became a bone of contention between school and city hall The success of the St Thomas School was not a foregone conclusion its history is replete with challenges and setbacks as well as triumphs The school was caught between the conflicting interests of enthusiastic mayors and townspeople who wanted to showcase the city's musical culture and opposing parties including jealous rectors and elitist sponsors who argued for the traditional subordination of the cantorate to the school system Drawing on many new recently discovered sources Michael Maul explores the phenomenon of the St Thomas School He shows how cantors local luminaries and municipal politicians overcame the School's detractors to make it a remarkable success with a world famous choir Illuminating the social and political history of the cantorate and the musical life of an important German city the book will be of interest to scholars of Baroque music and J S Bach cultural historians choral directors and musicologists and performers studying historical performance practice MICHAEL MAUL is Senior Scholar at the Bach Archiv Leipzig and lecturer in musicology at the universities of Leipzig Halle He is also the artistic director of the annual Leipzig Bach Festival *The Strad*, 1904

The Classical Method Robert Kaye, 2005-01-14 After 20 years of playing professionally in all the musical genres Robert Kaye presents a compilation of his notes in his new book The Classical Method Structure and the art of Piano Classical Improvisation Compositional Theory and Poetic Harmony revealing the secrets of the great composers throughout history Kaye's instrument of choice is the piano The Classical Method is attuned to myriad styles and instruments which determine his method but his basis and the foundation of his method rests in the piano His method focuses on target and sight revolutionizing the way that musicians play and composers create music Developed from years of experience as a career pianist Kaye takes the reader behind the closed doors of the creative process and unveils the

methodology behind great profound music How coincidental the peak of the Classical era was 1776 It became clear that my deprivation frustration and lack of education not only was overwhelmed with too much information But it was only going to become real and rewarding by sheer experience of playing the piano and with quick results Using your mind in conjunction with geometry and the very Freedom that the founding fathers intended for us to have I think I found the many secrets to it especially by targeting And it has given me an enormous relief I am now enriched with more music than one lifetime can accomplish I live in contentedness by the proof of the freedom of the mind Can understand and accept it spiritually as well as scientifically and have an array of pages accumulating everyday in composition Never frustrated what to play improvise compose display or demonstrate The Classical Method The Classical Method is user friendly and helps to unlock the mysteries behind musical genius giving advanced musicians the keys to a promising methodology for improvisation and original composition Current issue is 12th Edition Completed 9 12 12 Johann Sebastian Bach Laurence N.
