Compressed Sensing & Sparse Filtering Avishy Y. Carmi, Lyudmila Mihaylova, Simon J. Godsill, 2013-09-13

This book is aimed at presenting concepts methods and algorithms able to cope with undersampled and limited data One such trend that recently gained popularity and to some extent revolutionised signal processing is compressed sensing Compressed sensing builds upon the observation that many signals in nature are nearly sparse or compressible as they are normally referred to in some domain and consequently they can be reconstructed to within high accuracy from far fewer observations than traditionally held to be necessary Apart from compressed sensing this book contains other related approaches Each methodology has its own formalities for dealing with such problems As an example in the Bayesian approach sparseness promoting priors such as Laplace and Cauchy are normally used for penalising improbable model variables thus promoting low complexity solutions Compressed sensing techniques and homotopy type solutions such as the LASSO utilise l1 norm penalties for obtaining sparse solutions using fewer observations than conventionally needed The book emphasizes on the role of sparsity as a machinery for promoting low complexity representations and likewise its connections to variable selection and dimensionality reduction in various engineering problems This book is intended for researchers academics and practitioners with interest in various aspects and applications of sparse signal processing

Emerging Communication Technologies Based on Wireless Sensor Networks Mubashir Husain Rehmani, Al-Sakib Khan Pathan, 2016-04-05 This book fills a gap in the existing literature by combining a plethora of WSN based emerging technologies into a single source so that reviewers can form opinions regarding these technologies It presents different types of emerging communication technologies based on WSNs and describes how wireless sensor networks can be integrated with other communication technologies It covers many of the new techniques and demonstrates the application of WSNs The book is composed of 14 chapters divided into four parts Identification of emotions through EEG: Elicitation protocols, mapping methods, signal processing and classification strategies, applications Giuseppe Placidi, Daniela Iacoviello, 2023-03-13

Channel Sensing in Cognitive Radio by Using MATLAB. N. Krishna Chaitanya, Bimal Bhattarai, Ashok Subedi, 2018 The development in wireless communication along with various applications has put so many limitations on the use of radio spectrum When we look at spectrum utilization most of the times the radio spectrum is not used properly Some of the frequency bands in the spectrum are unoccupied some frequency bands are less occupied and a few bands are heavily occupied Cognitive radio is the novel concept which can successfully deal with the growing demand and scarcity of wireless spectrum by effectively utilizing the unoccupied frequency bands Cognitive radio is an intelligent wireless architecture which searches the spectrum holes and allows unlicensed users to access licensed spectrum bands Spectrum sensing is used to detect the spectrum holes providing high spectrum resolution capability We have generated an experimental model of cognitive radio system using MATLAB In this paper we delve into the idea of simulating cognitive radio system for effective utilization of vacant frequency bands The performance of cognitive radio has been tested using MATLAB R2012a
