Readers are encouraged to exercise critical thinking and attention to their own online behavior in order to better understand the e marketer's perspective, strategies, and tactics to think like a marketer. Although the focus is on e marketing in the United States, readers also see a global perspective in the coverage of market developments in both emerging and developed nations.
- An entire chapter devoted to law and ethics, and contributed by a practicing attorney, updates readers on the latest changes in this critical area. Readers are guided in learning a number of e marketing concepts with the help of some outstanding pedagogical features.
- Marketing concept grounding helps readers make the connection between tradition and today. Material in each chapter is structured around a principle of marketing framework followed by a look at how the internet has changed the structure or practice, providing an ideal bridge from previously learned material.
- Learning objectives set the pace and the goals for the material in each chapter.
- Best practices from real companies tell success stories, including new examples of firms doing it right.
