Engine And Gearbox Assembly In Maruti 800:

Santro BVR Subbu, 2018-01-05 There is no business like the car business. Within months of its launch in late 1998 with every well-known global automobile brand jockeying for a foothold in a small car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro emerged as a force to reckon with. The first car to be conceptualized and designed for and then developed and manufactured in India, the Sunshine Car has over a period of sixteen years set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference, and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful, and delightfully engaging, this is a business story with a difference about a car like no other.

PRODUCT MANAGEMENT IN INDIA, THIRD EDITION MAJUMDAR, RAMANUJ, 2007-12-19 This completely revised and updated text, now in its Third Edition, continues to explain the underlying concepts of product management. In the process, the book equips the budding as well as the practising managers with sufficient knowledge about how to deal with different problems faced in managing any typical fast-moving consumer good or durable product. Divided into three parts, the book provides in Part I a macro perspective of the Indian market. Part II offers an analytical discussion interspersed with vivid illustrations on conceptual issues like branding, segmentation, positioning, and differentiation. Part III features several new products; it also provides latest information on the products presented in the earlier edition. In addition, it analyzes the current market situation prevailing for a particular product in India. Finally, here each chapter shows how leading companies are successfully marketing the particular product in the Indian market.

WHAT IS NEW IN THIS EDITION The new edition incorporates the challenges offered by many new trends like growth of modern trade, explosion of the media, and the increasing influence of rural market in India. Chapters on The Indian Market: Emerging Panorama and New Marketing Challenges expose the students to contemporary concepts and examples. Part III offers new chapters on market analysis on products such as Tea, Soft Drinks, Chocolates, Malted Beverages, Packaged Drinking Water, Tooth Paste, Detergents, Fairness Cream, Footwear, Mobile Phones, and Digital Camera. Besides, it gives up-to-date background information for other products covered in the earlier edition. The Student CD contains a set of PowerPoint Presentations (PPTs) of 20 products. This well-established study has been widely adopted as a textbook in MBA programmes across the country. The Third Edition is more profusely illustrated with exhibits, diagrams, and PPTs and should be of immense utility and worth to the students of management as well as practising brand
