Integrated Process Modeling, Advanced Control and Data Analytics for Optimizing Polyolefin Manufacturing

Y. A. Liu, Niket Sharma, 2023-07-25 Integrated Process Modeling Advanced Control and Data Analytics for Optimizing Polyolefin Manufacturing Detailed resource on the Why What and How of integrated process modeling advanced control and data analytics explained via hands on examples and workshops for optimizing polyolefin manufacturing Integrated Process Modeling Advanced Control and Data Analytics for Optimizing Polyolefin Manufacturing discusses as well as demonstrates the optimization of polyolefin production by covering topics from polymer process modeling and advanced process control to data analytics and machine learning and sustainable design and industrial practice The text also covers practical problems handling of real data streams developing the right level of detail and tuning models to the available data among other topics to allow for easy translation of concepts into practice Written by two highly qualified authors Integrated Process Modeling Advanced Control and Data Analytics for Optimizing Polyolefin Manufacturing includes information on Segment based modeling of polymer processes selection of thermodynamic methods estimation of physical properties for polymer process modeling Reactor modeling convergence tips and data fit tool free radical polymerization LDPE EVA and PS Ziegler Natta polymerization HDPE PP LLPDE and EPDM and ionic polymerization SBS rubber Improved polymer process operability and control through steady state and dynamic simulation models Model predictive control of polyolefin processes and applications of multivariate statistics and machine learning to optimizing polyolefin manufacturing Integrated Process Modeling Advanced Control and Data Analytics for Optimizing Polyolefin Manufacturing enables readers to make full use of advanced computer models and latest data analytics and machine learning tools for optimizing polyolefin manufacturing making it an essential resource for undergraduate and graduate students researchers and new and experienced engineers involved in the polyolefin industry

Optimization of Process Flowsheets through Metaheuristic Techniques José María Ponce-Ortega, Luis Germán Hernández-Pérez, 2018-07-19 This textbook presents a general multi objective optimization framework for optimizing chemical processes by implementing a link between process simulators and metaheuristic techniques The proposed approach is general and shows how to implement links between different process simulators such as Aspen Plus HYSIS Super Pro Designer linked to a variety of metaheuristic techniques implemented in Matlab Excel C and others eliminating the numerical complications through the optimization process Furthermore the proposed framework allows the use of thermodynamic design and constitutive equations implemented in the process simulator to implement any process Aimed at graduate and undergraduate students it presents introductory chapters for process simulators and metaheuristic optimization techniques and provides several worked exercises as well as proposed exercises In addition accompanying tutorial videos clearly explaining the implemented methodologies are available online Also some Matlab routines are included as electronic supporting material

Pharmaceuticals 101 - Everything You Need to Know About

the Industry Bashir U Ahmed,2024-12-31 The pharmaceutical industry plays a critical role in advancing global health and improving the quality of life for millions of people However the intricacies of this vast and dynamic field are often difficult to grasp for both industry professionals and curious learners With so many specialized departments processes and technologies at play it can be overwhelming to gain a comprehensive understanding of how the industry operates as a whole

Pharmaceuticals 101 Everything You Need to Know About the Industry was born out of a desire to bridge this gap and provide a clear structured guide to the inner workings of one of the most impactful industries in the world This book is designed as a practical and educational resource for professionals working in the pharmaceutical industry students aspiring to build a career in it and anyone interested in understanding its core functions Each chapter delves into a specific department offering an in depth summary of its purpose key responsibilities and how it contributes to the industry s overarching mission From Research and Development R it is essential for staying competitive in a highly regulated and constantly evolving market By providing actionable insights and examples this book equips readers with the knowledge needed to not only understand the current state of the industry but also to envision its future Lastly I want to emphasize that this book is not limited to those who are already part of the pharmaceutical industry Whether you are a healthcare professional a student or simply someone curious about the behind the scenes processes that bring medicines to life this book is for you It will provide you with a well rounded understanding of the industry s complexity and shed light on how each department plays a crucial role in its success I hope this book serves as a valuable guide a source of inspiration and a steppingstone for your journey into the fascinating world of pharmaceuticals Let s explore this incredible industry together

Chemical Engineering ,2007 **Advances in Synthesis Gas: Methods, Technologies and Applications** Mohammad Reza Rahimpour,Mohammad Amin Makarem,Maryam Meshksar,2022-10-22 **Advances in Synthesis Gas Methods Technologies and Applications** Syngas Purification and Separation considers different common and novel processes for the purification of produced syngas such as absorption adsorption membrane cryogenic distillation and particulate separation technologies in addition to thermal and oxidative processes for tar removal The role of various catalysts or materials in absorption adsorption and membrane processes are discussed in separate chapters to address each in more detail Introduces various adsorption and absorption techniques for purifying syngas Describes syngas purification by various membranes Discusses novel technologies for syngas purification

Handbook of Biofuels Sanjay Sahay,2021-10-31 Handbook of Biofuels looks at the many new developments in various type of bioenergy along with the significant constraints in their production and or applications Beyond introducing current approaches and possible future directions of research this title covers sources and processing of raw materials to downstream processing constraints involved and research approaches to address and overcome these needs Different combinations of products from the biorefinery are included along with the material to answer questions surrounding the optimum process conditions for conversion of different feedstocks to bioenergy the basis for choosing conversion technology and what bioenergy products make economic sense With chapters on the techno economic analysis of biofuel production and concepts and step by step approaches in bioenergy processing the objective of this book is to present a comprehensive and all encompassing reference about bioenergy to students teachers researchers and professionals Reviews all existing and emerging technologies surrounding the production of advanced biofuels including biodiesel and bioethanol Includes biofuel applications with compatible global application case studies Offers new pathways for converting biomass *Bioethanol Production from Food Crops* Ramesh C. Ray,S Ramachandran,2018-08-20 Bioethanol Production from Food Crops Sustainable Sources Interventions and Challenges comprehensively covers the global scenario of ethanol production from both food and non food crops and other sources The book guides readers through the balancing of the debate on food vs fuel giving important insights into resource management and the environmental and economic impact of this balance between demands Sections cover Global Bioethanol from Food Crops and Forest Resource Bioethanol from Bagasse and Lignocellulosic wastes Bioethanol from algae and Economics and Challenges presenting a multidisciplinary approach to this complex topic As biofuels continue to grow as a vital alternative energy source it is imperative that the proper balance is reached between resource protection and human survival This book provides important insights into achieving that balance Presents technological interventions in ethanol production from plant biomass to food crops Addresses food security issues arising from bioethanol production Identifies development bottlenecks and areas where collaborative efforts can help develop more cost effective technology Plunkett's Transportation, Supply Chain & Logistics Industry Almanac Jack W. Plunkett,2008-03 A Market research guide to the transportation supply chain and logistics industry a tool for strategic planning competitive intelligence employment searches or financial research It contains trends statistical tables and an industry glossary It also includes one page profiles of transportation supply chain and logistics industry firms Process and Chemical Engineering ,1999 **CEP Software Directory** ,1999 **Chemical Week: July 6, 1988 - Vol. 143, No. 1** ,1988 **Chemical Engineering Progress** ,2004 PC AI ,1998 *Topical Conference on Batch Processing* ,2001 **Standard & Poor's Stock Reports** ,2000 Information Industry Directory ,1992 Comprehensive directory of databases as well as services involved in the production and distribution of information in electronic form There is a detailed subject index and function service classification as well as name keyword and geographical location indexes

Thermodynamics and the Design, Analysis, and Improvement of Energy Systems, 1993 American Society of Mechanical Engineers. Winter Annual Meeting, 1993 **Bioenergy and Food Security**, 2010 A potent argument for bioenergy development lies in the ability of the sector to unlock agricultural potential by bringing in much needed investments to raise agricultural productivity to spur food security and poverty reduction This document presents the BEFS Analytical Framework AF developed to test this argument Agriculture lies at the heart of the BEFS AF and allows governments to consider viable pro poor strategies for bioenergy development The set of tools within the BEFS AF offers an integrated approach to decision making that combines the technical viability with the country s prevailing social and economic development objectives This document explains the rationale and structure of the BEFS AF provides a general overview of the tools and their application and illustrates how the analytical information generated assists policy makers in making informed decisions concerning the many varied consequences of bioenergy developments on food security poverty reduction and agriculture development and economic growth Provided by publisher **The Traffic World**, 2000
