Automated Data Warehouse Testing G. Suden, 2015-03-13 Automated Data Warehousing Testing is a beginner's step by step guide for novice to intermediate level testers who want to try their hands at automated testing. It provides step by step instructions for setting up the Automation Framework from scratch. The framework is quite generic and as such can be applied to most data warehousing projects. This book concentrates on the practical side of automated testing rather than the theoretical side. It includes complete listings of the automated code for a sample data warehouse that is set up for testing. The code listings explain the logic for the individual tests and generic functions. The book covers: An overview of the data warehouse architecture and modelling; Set up the environment for automation. Software used is open source and freeware; Set up the Automation Framework from scratch and add important features to it like logging information to console and files; Set up the sample data warehouse for automation including the source systems and staging area; Automate the testing of staging area dimension and fact tables; Automate the testing of CSV and Microsoft Excel data sources; Generate HTML reports of the test results; Automate Data Profiling tests.

**The Future of Banking - Innovation, Risk and Inclusion**, 2026-01-07 Banking stands at a crossroads shaped by rapid innovation, regulatory pressure and society's demand for inclusion and sustainability. The Future of Banking: Innovation, Risk and Inclusion maps this terrain with contributions that connect strategy to execution, showing how technology, governance and prudence can move in step. The book explains where value is migrating from AI driven services and customer experience analytics to data sharing platforms while clarifying what it takes to scale safely. It covers open banking, wallets and bank fintech collaboration, the engine room of risk and capital creditworthiness under EBA LOM, AI enabled credit scoring, CCR backtesting and operational risk across developed and emerging markets and the foundations of trust in governance, ethics and faith based models. Practical levers for inclusion are highlighted through evidence on mobile payments for Generation Z, MSME and women focused credit and rural fintech delivery while climate related disclosures and green finance complete a roadmap for resilient, responsible banking. Designed for academics, supervisors and industry leaders, the book provides a clear comparative view of what works, where it falls short and how to transition from pilots to enterprise adoption without compromising stability, client responsibility and measurable impact.

**More Agile Testing** Janet Gregory, Lisa Crispin, 2015 Janet Gregory and Lisa Crispin pioneered the agile testing discipline with their previous work Agile Testing Now. Testing the Data Warehouse Practicum Doug Vucevic,Wayne Yaddow,2012-08-22 The quality of a data warehouse DWH is the elusive aspect of it not because it is hard to achieve once we agree what it is but because it is difficult to describe We propose the notion that quality is not an attribute or a feature that a product has to possess but rather a relationship between that product and each and every stakeholder More specifically the relationship between the software quality and the organization that produces the products is explored Quality of data that populates the DWH is the main concern of the book therefore we propose a definition for data quality as fitness to serve each and every purpose Methods are proposed throughout the book to help readers achieve data warehouse quality
