Autonomy In Foreign Language Learning And Teaching A:

Autonomy and Foreign Language Learning Henri Holec,1981 **Autonomy, Agency and Identity in Foreign Language Learning and Teaching** Jing Huang,2013 This book offers readers a basic grounding in autonomy and related concepts of agency and identity in foreign language education The ethnographic study explores how autonomy develops within the long term process of EFL and TEFL learning in a Chinese social and institutional context Through examining the general characteristics and patterns within the long term development of autonomy among the students the enquiry puts under close scrutiny a number of fundamental issues in autonomy research and practice such as reactive autonomy in relation to proactive autonomy personal autonomy in relation to learner autonomy other control in relation to self control in the multi control model of autonomy and also issues of autonomy in the transition from foreign language learning to foreign language teaching The study presents the more describable concepts of identity and agency to investigate the development of autonomy in foreign language learning and teaching and explores their complex interrelationships The book finally highlights major contributions and limitations of the investigation and provides implications and suggestions for theory pedagogy and research

[Autonomy in Second Language Learning: Managing the Resources](#) Mirosław Pawlak,Anna Mystkowska-Wiertelak,Jakub Bielak,2016-12-28 The present volume brings together papers devoted to the role of learner and teacher autonomy in the process of second and foreign language learning which have been contributed by scholars from Poland and abroad The book has been divided into three parts in accordance with the topics that the individual contributions touch upon The first part includes papers dealing with different ways in which learner autonomy can be fostered and evaluated The papers contained in Part Two are connected with the role of language learning strategies in the development of learner independence Finally Chapter Three focuses on developing teacher autonomy which in the opinion of many specialists is indispensable if learner autonomy is to be promoted Thanks to its wide ranging focus this edited collection will be of interest not only to second language learning specialists interested in the role of learner autonomy but also to undergraduate graduate and postgraduate students working on their BA MA and PhD theses as well as practitioners wishing to promote learner independence in their classrooms

[Autonomy and Foreign Language Learning in a Virtual Learning Environment](#) Miranda Hamilton,2013-04-11 Digitalised learning with its promise of autonomy enhanced learner choice independence and freedom is an intuitive and appealing construct but closer examination reveals it to be a rather simplistic proposition raising the following questions What do we mean by autonomy What are we implying about the role of the teacher the classroom and interaction between learners What do we understand about the impact of technology on the ecology of the learning environment This book describes the use of a Virtual Learning Environment VLE by a group of advanced English language learners in Mexico comparing what students thought and what they did in response to the technology The theoretical aim of the book is to work towards the construction of a theory of the development of autonomy

and virtual learning in an EFL context Enhanced understanding about the relationship between autonomy and technology has the potential to inform academics software designers materials writers teacher educators and teachers and to help learners in their quest to acquire a foreign language
