The hacker mind set is not confined to this software hacker culture There are people who apply the hacker attitude to other things like electronics or music actually you can find it at the highest levels of any science or art Software hackers recognize these kindred spirits elsewhere and may call them hackers too and some claim that the hacker nature is really independent of the particular medium the hacker works in But in the rest of this document we will focus on the skills and attitudes of software hackers and the traditions of the shared culture that originated the term hacker The Hacker Attitude Hackers solve problems and build things and they believe in freedom and voluntary mutual help To be accepted as a hacker you have to behave as though you have this kind of attitude yourself And to behave as though you have the attitude you have to really believe the attitude But if you think of cultivating hacker attitudes as just a way to gain acceptance in the culture you ll miss the point Becoming the kind of person who believes these things is important for you for helping you learn and keeping you motivated As with all creative arts the most effective way to become a master is to imitate the mind set of masters not just intellectually but emotionally as well
