

### From the diary of Anne Frank Question and Answers

**Q1. What makes writing in a diary a strange experience for Anne Frank?**

**A.** It was the first time Anne was writing in a diary. She felt that later no one would be interested in reading about the thoughts of a young girl. Both these facts made it a strange experience for her.

**Q2. Why does Anne want to keep a diary?**

**A.** Anne wanted to keep a diary and write in it because she had a lot going on in her head. She had no friend with whom she could talk about such personal stuff. Thus, she decided to maintain a diary.

**Q3. Why did Anne think she could confide more in her diary than in people?**

**A.** According to Anne Frank, "paper has more patience than people". She chose to confide more in her diary because she felt there was no friend who could listen to her with enough patience.

**Q4. Why does Anne provide a brief sketch of her life?**

**A.** Anne feels it would be weird to just simply jot down facts without giving her background. In case someone might read it in future, he/she won't be able to understand vaguely stated facts. Thus, she decided to provide a brief sketch of her life.

**Q5. What tells you that Anne loved her grandmother?**

**A.** The fact that Anne spent some part of her childhood with her grandmother is self-sufficient to imply connection between the two. Also, she explicitly mentioned in her diary that she misses her grandmother more than anyone is aware of is evident enough that she loved her grandmother.

**Q6. Why was Mr Keesing annoyed with Anne? What did he ask her to do?**

**A.** Mr Keesing, Anne's maths professor was annoyed with her because she would not stop talking during his lectures as a result of which, he gave her assignments as punishments.

What happens to children who live on the edge Children in families that are trying to make it somehow someway anyway they can children with disabilities who speak other languages who are told they are different and who know they don t fit What happens to adolescents who are kicked out of regular high school who end up under the control of the social welfare system who belong to gangs whose friends are killed by gunfire How can they articulate their own positions and needs What kinds of literacy do they require so that society will recognize them Who is their advocate Because literacy can be used to enable or disable those children marginalized by society must be literate to survive and teachers are often their only advocates But teachers often stand alone when they advocate For most teachers there are no guidelines available on teaching and advocacy and we rarely talk about the role that literacy plays in providing opportunities for teachers to work as advocates Exploring how literacy learning is enabled and disabled offers that opportunity The teacher researchers in this book use written texts to uncover the hidden assumptions that shape our perceptions about people s positions in society They focus on how language is done what we do with it how we define ourselves in print how students are defined often reinvented in obscure documents that control their lives Teaching and Advocacy encourages teachers to stand beside their students to expose the hidden assumptions in official documents to develop alternative explanations and above all to advocate Following each chapter Denny Taylor s interview with the author reveals a rare commitment to children and to advocacy and demonstrates the involvement implicit in qualitative research
