The latest corporate responses to climate change, energy, and terrorism. Global capitalism stands at a crossroads facing terrorism, environmental destruction, and anti-globalization backlash. Today's global companies are at a crossroads too, searching desperately for new sources of profitable growth. Stuart L Hart's *Capitalism at the Crossroads*, Second Edition, is about solving both of those problems at the same time. It's about igniting new growth by creating sustainable products that solve urgent societal problems. It's about using new technology to deliver profitable solutions that reduce poverty and protect the environment. It's about becoming truly indigenous to all your markets and avoiding the pitfalls of first-generation greening and sustainability strategies. Hart has thoroughly revised this seminal book with new case studies, trends, and lessons learned, including the latest experiences of leaders like GE and Wal-Mart. You'll find new insights from the pioneering BoP Protocol initiative in which multinationals are incubating new businesses in income-poor communities. You'll also discover creative new ways in which corporations are responding to global warming and terrorism. More than ever, this book points the way toward a capitalism that's more inclusive, more welcome, and far more successful for both companies and communities worldwide. Paths to profitable sustainability. Lessons from GE and Wal-Mart. Shattering the trade-off myth. New commercial strategies for serving the base of the pyramid. What enterprises have learned about doing business in income-poor regions. Becoming indigenous for real for good. Codiscovering new opportunities, cocreating new businesses with the poor.
