History Alive 6th Grade Chapter 19:

The Sure Thing Nick Townsend,2014-02-27 _____ The bookies always win But one man has been proving them wrong for four decades In the summer of 1975 Barney Curley a fearless and renowned gambler masterminded one of the most spectacular gambles of all time with a racehorse called Yellow Sam With a meticulous entirely legal plan involving dozens of people perfectly timed phone calls sealed orders and months of preparation Curley and Yellow Sam beat the bookmakers and cost them millions They said that it could never happen again But in May 2010 thirty five years after his first coup Curley staged the ultimate multi million pound winning sequel The Sure Thing tells the complete story of how he managed to organise the biggest gamble in racing history and how he then followed up with yet another audacious scheme in January 2014

Demon Entrepreneurs: Refashioning the 'Greek Genius' in Modern Times Basil C. Gounaris,Ioannis D. Stefanidis,2022-09-16 The Greek genius appears as the combination of two stereotypes with a long pedigree Homer s ingenious Odysseus triumphing with tricks over his foes and Virgil s deceitful Odysseus the impostor Greek Adamantios Korais the leading scholar who almost single handedly refashioned the Greek nation fully appreciated the importance of Greek shipping and commerce and the wealth they generated for the spread of Enlightenment ideas and the quest for political emancipation in the Greek lands In this context the genius and the consequent economic success have long been

considered the essential prerequisites for the spreading of Greek education and ultimately national revival. Conversely, Greek education and consciousness building via economic success are taken as proof of the immanent Greek genius. As a popular myth of redemption, this stereotype persists in a country of rather limited resources and uncertain prospects. This volume seeks to identify both the content and the ways that the Greek genius has long worked at the political, social, and economic level. Based on a collective research project, it offers an original contribution to the broader discussion generated by the current Greek national bicentenary. This book will appeal to all those interested in the idea of the Greek national character as well as international perceptions of Greek culture, education, and society during the modern era.
