Irmina:

Power of the Priests Sabine Kubisch, Hilmar Klinkott, 2023-12-31 Religion plays a central role in nearly every aspect in people's life of most pre-modern cultures. Especially the interconnection between religion and politics is a common fact but the details of this relation and interacting processes behind this are not substantially studied. Therefore this volume does not aim to confirm the linkage of religion and politics in general but to investigate its functionalities in political processes. A focus is placed on the political role of religious personnel beyond their religious and cultic tasks and their influence in pre-modern societies from a cross-cultural perspective. Specialists from various disciplines present their research based on case studies. Thereby this interdisciplinary volume covers a wide geographical and chronological range from ancient Egypt in the Bronze Age until medieval England. These papers are organised according to core functions questioning the instrumentalisation of religious personnel.

Willibrord between Ireland, Britain and Merovingian Francia (690-739) Michel Summer, 2024-05-28 The century between c. 650 and 750 was one of major religious, social and political transformations in northwest Europe. In the Frankish kingdom, clerics from Ireland and Britain played an important role in these processes. One of the most prominent figures to emerge from this period was Willibrord, a Northumbrian educated in Ireland who became the first bishop of Utrecht and founded the monastery of Echternach in modern Luxembourg. Through his involvement in the Christianisation of Frisia, his cooperation with the eastern Frankish elite including the ancestors of Charlemagne and his connection with the pope, Willibrord was at the centre of the developments which led to the formation of a new ecclesiastical and political landscape between the North Sea and Thuringia on the eve of the Carolingian period. This book, which represents the first extensive study of the topic in English, extends its analysis of Willibrord's career beyond the mission to Frisia and examines the political dimension of his activity in Merovingian Francia and its border regions. By offering a fresh look at the main sources for Willibrord's life, the book explores how Insular clerics shaped their Frankish environment through the creation of networks between Ireland, Britain and the continent and their ability to take on a variety of different roles within Merovingian society.

Ruptured Commons Anna Guttman, Veronica J. Austen, 2024-10-10 At a time when we have all lived through profound and unexpected disruptions to our shared spaces, routines, economies, societies and work lives, this book considers the nature and implications of rupture, the commons and their conjoining. Addressing rupture and disruption through the lens of literary and cultural studies, this volume traverses genres: film, fiction, theatre, poetry and the graphic novel and addresses histories and identities as ecologies. The focus is resolutely contemporary, with nearly all of the texts being analyzed produced within the last decade. Beginning with the history of and debates about Garrett Hardin's famous tragedy of the commons, *Ruptured Commons* engages with texts and cultures of disaster wherein artistic expression becomes a form of protest and a path to change. This collection both critically examines our arrival at and understanding of this moment and explores diverse and hopeful visions for the future embedded within contemporary culture.
