Accelerated Geometry Name Chapter 3 Assignments:

North American XB-70 Valkyrie Peter E. Davies,2018-03-09 Of the many futuristic military aircraft concepts created in the 1950s the North American XB 70 still stands out as the most awe inspiring With its huge white partially folding delta wing its fuselage resembling a striking cobra and its extraordinary performance it was one of the foremost technological achievements of the 20th Century A strategic bomber built to outrun any Soviet fighter jet it could reach Mach 3 with a full nuclear payload as fast as the legendary SR 71 Blackbird but more than three times the size However its role as a nuclear bomber was limited after the introduction of Intercontinental Ballistic Missiles and defence cuts eventually led to the project being scrapped in the mid 1960s The Valkyrie had a brief costly decade of life but it proved the continuing value of developing manned bombers However almost half a century after the XB 70 its predecessor the B 52 continues in service Using full colour artwork and rigorous analysis this is the complete story of the ultimate US Cold War military X plane
