Postcolonial Imaginations and Moral Representations in African Literature and Culture Chielozona Eze,2011-12-16 The postcolonial African culture as it is

discoursed in the academia is largely influenced by Africa's response to colonialism To the degree that it is a response it is to considerably reactive and lacks forceful moral incentives for social critical consciousness and nation building Quite on the contrary it allows especially African political leaders to luxuriate in the delusions of moral rectitude imploring at will the evil of imperialism as a buffer to their disregard of their people This book acknowledges the social and psychological devastations of colonialism on the African world It however argues that the totality of African intellectual response to colonialism and Western imperialism is equally if not more damaging to the African world In what ways does the average African leader indeed the average African judge and respond to his world How does he conceive of his responsibility towards his community and society The most obvious impact of African response to colonialism is the implicit search for a pristine innocent paradigm in for instance literary philosophical social political and gender studies This search has its own moral implication in the sense that it makes the taking of responsibility on individual and social level highly difficult Focusing on the moral impact of responses to colonialism in Africa and the African Diaspora this book analyzes the various manifestations of delusions of moral innocence that has held the African leadership from the onerous task of bearing responsibility for their countries it argues that one of the ways to recast the African leaders responsibility towards Africa is to let go on the one hand the gaze of the West and on the other of the search for the innocent African experience and cultures Relying on the insights of thinkers such as Frantz Fanon Wole Soyinka Kwame Anthony Appiah Achille Mbembe and Wolfgang Iser this book suggests new approaches to interpreting African experiences It discusses select African works of fiction as a paradigm for new interpretations of African experiences

Understanding Things Fall Apart Solomon Ogbede Iyasere,1998 Critical essays on Chinua Achebe's novel *Things fall apart*

Conrad's Shadow Nidesh Lawtoo,2016-09-01 Western thought has often dismissed shadows as fictional but what if fictions reveal original truths Drawing on an anti Platonic tradition in critical theory Lawtoo adopts ethical anthropological and philosophical lenses to offer new readings of Joseph Conrad's novels and the postcolonial and cinematic works that respond to his oeuvre He argues that Conrad's fascination with doubles urges readers to reflect on the two sides of mimesis one side is dark and pathological and involves the escalation of violence contagious epidemics and catastrophic storms the other side is luminous and therapeutic and promotes communal survival postcolonial reconciliation and plastic

adaptations to changing environments Once joined the two sides reveal Conrad as an author whose Janus faced fictions are powerfully relevant to our contemporary world of global violence and environmental crisis

African Legal Theory and Contemporary Problems Oche Onazi,2013-11-26 The book is a collection of essays which aim to situate African legal theory in the context of the myriad of contemporary global challenges from the prevalence of war to the misery of poverty and disease to the crises of the environment Apart from being problems that have an indelible African mark on them a common theme that runs throughout the essays in this book is that African legal theory has been excluded under explored or under theorised in the search for solutions to such contemporary problems The essays make a modest attempt to reverse this trend The contributors investigate and introduce readers to the key issues questions concepts impulses and problems that underpin the idea of African legal theory They outline the potential offered by African legal theory and open up its key concepts and impulses for critical scrutiny This is done in order to develop a better understanding of the extent to which African legal theory can contribute to discourses seeking to address some of the challenges that confront African and non African societies alike
