guide as a whole rather than to restrict your focus on the track specific topics when they overlap so much you better play safe When we develop our material we do not classify topics the BOK way We follow our own flow of instructions which we think is more logical for the overall learning process Don t worry it does not hurt to do so as long as you truly comprehend the material To succeed in the exams you need to read as many reference books as possible There is no single book that can cover everything This ExamFOCUS book focuses on the more difficult topics that will likely make a difference in exam results The book is NOT intended to guide you through every single official topic You should therefore use this book together with other reference books for the best possible preparation outcome
