Contracts for Infrastructure Projects Philip Loots,Donald Charrett,2022-05-18 Contracts for Infrastructure Projects An International Guide provides a guide to the law relating to construction contracts for infrastructure projects it is intended for the use of engineers and other professionals who are involved in the negotiation and administration of construction contracts to enable them to understand the risks involved and how to minimise them The principles of construction law outlined in this book apply to small construction contracts as well as very large contracts for which the contract sum may be in the billions of dollars The focus of the book is on construction contracts entered into by commercial organisations operating in a business environment Contract law generally assumes that such parties are of equal bargaining power and

puts relatively few fetters on their ability to agree on the terms of their bargain. However, where legislation impacts on the execution of construction projects or the operation of construction contracts, it may be of major importance in protecting the rights of weaker parties or third parties. It is assumed that the users of this book will be familiar with the general concepts of tendering and contracting for engineering and construction projects but may not have any formal knowledge of the law. To the extent possible, the emphasis is on general principles of contract law that are widely accepted in many jurisdictions. Examples are drawn from case law in a number of common law jurisdictions as well as from civil codes.

FIDIC Contracts in Africa and the Middle East Donald Charrett, 2023-09-20. FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project. FIDIC Contracts in Africa and the Middle East: A Practical Guide to Application provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the laws that apply to the site where the work is carried out and for the governing law of the contract for a number of the jurisdictions in which FIDIC contracts are or can be used. This book closely follows the format of The International Application of FIDIC Contracts. Each jurisdiction features an outline of its construction industry and information on the impact of COVID-19 on both the execution and operation of construction contracts. This book is essential reading for construction professionals, lawyers, and students of construction law.

FIDIC Contracts in Asia Pacific Donald Charrett, 2021-11-29. FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project, subject to the relevant laws. FIDIC Contracts in Asia Pacific provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the applicable laws for a number of the jurisdictions in which FIDIC contracts are used. The laws that apply to the governing law of the contract, construction works, and dispute resolution in each jurisdiction are identified. This book offers chapters on the FIDIC Conditions of Contract for Underground Works and the perspective of a bilateral aid agency on the use of FIDIC contracts. Each jurisdiction features an outline of its construction industry and information on the impact of COVID-19 on both the execution of construction projects and the operation of construction contracts. This book is essential reading for construction professionals, lawyers, and students of construction law using FIDIC contracts.
