Dark Sides of the Startup Nation

Sibylle Heilbrunn, 2022-11-29 Israeli national neoliberalism has promoted innovation policies leading to an ostensible paradox At the center is a startup nation with a vibrant and successful high tech entrepreneurial ecosystem accumulating resources and

enabling constant growth At the geographical and social periphery there has emerged a parallel society with often marginalized groups not able to keep up In one of the most unequal countries with a high rate of poverty entrepreneurial heroes are celebrated at the center promoting a myth that all could be self made successes At the periphery entrepreneurs are struggling to survive often pushed into precarious working and living conditions Applying critical theory discourse this book illustrates how neoliberalism and entrepreneurship are intertwined and how the startup nation has evolved in Israel It explores how national neoliberal state policies have targeted technological innovation as a tool to obtain a competitive advantage in the international arena rather than aiming at increasing economic achievements and well being for all It will demonstrate that the Israeli entrepreneurship scene exemplifies the existence of parallel entrepreneurial societal spaces analyze the positionality of entrepreneurs belonging to a variety of groups that characterize Israeli society and uncover structural disadvantages and related levels of precarity as well as existing links between entrepreneurial advantages and disadvantages mobility and varying degrees of social marginality *Dark Sides of the Startup Nation* sheds light onto the problematic and sometimes contradictory myth that entrepreneurship is meritocratic and that neoliberal capitalism provides everyone with equal opportunities to succeed The book will be of interest to researchers academics policy makers and students in the fields of entrepreneurship and small business management responsibility and business ethics and technology and innovation
