### ***Abstract***

An increasingly important aspect of undergraduate study is the ability to deal with reading academic texts digitally. Whilst the literature suggests that students prefer reading print texts (Foasberg, 2014; Mizrahi, 2015) and often have a deeper level of engagement with texts in this medium (Mangen et al., 2013; Delgado et al., 2018), the reality is that, for most students, digital texts are the norm. Study guides often focus on reading strategies that are considered broadly applicable to both digital and print formats. However, the differences between the two mediums are likely to impact on the strategies used, with students developing their own approaches as they gain more experience. In this paper, we present findings from a study exploring students' perspectives and practices in relation to digital reading. We carried out focus group interviews with 20 students in their second or final year of undergraduate degree programmes. Our analysis reveals that reading texts digitally does indeed form the bulk of students' reading activity, with ease and speed of accessibility, cost, and environmental considerations influencing this choice, and in some cases, precluding reading in print. However, despite the prominence of digital reading, some aspects of print reading – in particular the scope for more sustained focus, detailed reading and enjoyment of the experience – were highly valued by the students. Students' approaches to reading digital texts varied depending on reading purpose, but, in general, students had developed a range of techniques to help them navigate digital reading.

## **Students Perceptions Of Reading:**

## Adopting the Melody of Phrase: An Psychological Symphony within **Students Perceptions Of Reading**

In a global taken by displays and the ceaseless chatter of immediate communication, the melodic elegance and emotional symphony developed by the prepared term usually fade in to the background, eclipsed by the persistent sound and interruptions that permeate our lives. But, situated within the pages of **Students Perceptions Of Reading** a marvelous literary value overflowing with fresh feelings, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, that charming masterpiece conducts readers on a mental trip, skillfully unraveling the concealed songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the touching analysis, we can discover the book is central harmonies, analyze their enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
