Title: Exploring a Teaching Career Through an Energy Lesson

Subject: Science, English and Technology

Grades: 9-12

Brief Description

Students research energy and the need for conservation, develop a lesson plan on energy for elementary students and teach the lessons at an elementary school.

Objectives

- Students identify information on energy and conservation
- Students will demonstrate the use of various methods of communication
- Students will research, compose, and orally present information using appropriate technology.
- Students will analyze the occasion and interests of the audience and choose effective verbal and nonverbal techniques (e.g., voice, gestures, eye contact) for presentations.

Materials Needed (May vary due to student's selection of topic and how they wish to create their project)

- Internet access
- Presentation software
- Copy machine
- Laptop computers
- LCD data projectors

Lesson Plan

- Brainstorm with students to find out what they know about energy and what they think elementary students should know about energy.
- Form small groups of students (2-3 per group). Each group selects a grade level to target for teaching about energy. Each group must develop a presentation on energy and an activity that supports the lesson on energy.
- Students research energy and develop their presentation
- The group must create a script from which each member of the group is able to present the lesson and answer questions.
- Students present their lesson to the rest of the class for feedback. (Students often assume others will understand just by telling them and using the terminology. The
