**Business Studies** Alex Pinnock,2014     *Handbook of Research on Digital Learning* Montebello, Matthew,2019-10-11  
Education has gone through numerous radical changes as the digital era has transformed the way we as humans communicate inform ourselves purchase goods and perform other mundane chores at home and at work New and emerging pedagogies have enabled rapid advancements perhaps too rapidly It s a challenge for instructors and researchers alike to remain up to date with educational developments and unlock the full potential that technology could have on this significant profession The Handbook of Research on Digital Learning is an essential reference source that explores the different challenges and opportunities that the new and transformative pedagogies have enabled The challenges will be portrayed through a number of case studies where learners have struggled managed and adapted digital technologies in their effort to progress educational goals Opportunities are revealed and displayed in the form of new methodologies institutions scenarios and ongoing research that seeks to optimize the use of such a medium to assist the digital learner in the future of networked education Featuring research on topics such as mobile learning self directed learning and cultural considerations this book is ideally designed for teachers principals higher education faculty deans curriculum developers instructional designers educational software developers IT specialists students researchers and academicians     **Research Anthology on Applying Social Networking Strategies to Classrooms and Libraries** Management Association, Information Resources,2022-07-08 The introduction of social media has given many communities the opportunity to connect and communicate with each other at a higher level than ever before Many organizations from businesses to governments have taken advantage of this important tool to conduct research and enhance efficiency Libraries and educational institutions have also made use of social media to enhance educational marketing engage with learning communities adapt educational tools and more The Research Anthology on Applying Social Networking Strategies to Classrooms and Libraries describes the applications tools and opportunities provided by the intersection of education and social media It also considers the ways in which social media encourages learner engagement and community participation Covering topics such as data collection online professional learning networks and reinforcement learning this major reference work is a dynamic resource for pre service teachers teacher educators faculty and administrators of both K 12 and higher education librarians archivists government officials researchers and academicians     *Business Studies* L. Van Rensburg,2020     *Teaching and Learning for Change* Ingrid Schudel,Zintle Songqwaru,Sirkka Tshiningayamwe,Heila Lotz-Sisitka,2021 Like many national curricula around the world South Africa s curriculum is rich in environment and sustainability content Despite this environmental teaching and learning can be challenging for educators This comes at a time when Sustainable Development Goal 4 via Target 4 7 requires governments to integrate Education for Sustainable Development into national education systems Teaching and Learning for Change is an exploration of how teachers and teacher educators engage environment and

sustainability content knowledge methods and assessment practices an exposition of quality education processes in support of ecological and social justice and sustainability The chapters evolve from a ten year research programme led out of the DSI NRF SARChI Chair in Global Change and Social Learning Systems working with national partners in the Fundisa for Change programme and the UNESCO Sustainability Starts with Teachers programme They show the integration of education for sustainable development in teacher professional development and curricula in schools in South Africa They reveal how university based researchers teachers and teacher educators have made theoretically and contextually reasoned choices about their lives and their teaching in response to calls for a more sustainable world in which education must play a role Teaching and Learning for Change will be of interest to education policymakers in government advisors and educators in educational and environmental departments NGOs and other institutions It will also be of interest to teacher educators teachers and researchers in education more generally and environment and sustainability education specifically
