Kelly, Hung T. Nguyen, Elbert Walker, 2004-11-11 Soft Computing and Intelligent Systems Design Fakhreddine O. Karray, Clarence W. De Silva, 2004 Traditional artificial intelligence AI techniques are based around mathematical techniques of symbolic logic with programming in languages such as Prolog and LISP invented in the 1960s These are referred to as crisp techniques by the soft computing community The new wave of AI methods seeks inspiration from the world of biology and is being used to create numerous real world intelligent systems with the aid of soft computing tools These new methods are being increasingly taught at the upper end of the curriculum sometimes as an adjunct to traditional AI courses and sometimes as a replacement for them Where a more radical approach is taken and the course is being taught at an introductory level we have recently published Negnevitsky's book Karray and Silva will be suitable for the majority of courses which will be found at an advanced level Karray and de Silva cover the problem of control and intelligent systems design using soft computing techniques in an integrated manner They present both theory and applications including industrial applications and the book contains numerous worked examples problems and case studies Covering the state of the art in soft computing techniques the book gives the reader sufficient knowledge to tackle a wide range of complex systems for which traditional techniques are inadequate Neural Networks Applications Patrick K. Simpson, 1996 This volume builds on and continues the excellent coverage of the subject established in the first volume with a special focus on cutting edge applications This book provides practicing engineers with a snapshot of the latest applications supported by the most recent developments in neural networks theory and technology You will find state of the art coverage of applications in control power systems medical systems information processing signal processing manufacturing production and inspection vehicular technology and more **First International Conference on 'Genetic Algorithms in Engineering Systems, Innovations and Applications', GALESIA, 12-14 September 1995, Venue, Halifax Hall, University of Sheffield, UK.** Institution of Electrical Engineers.
