

## REVIEW QUESTIONS

Note: Questions 6-2, 6-7, and 6-8 require knowledge about the relation between the area under the marginal cost curve and total costs. This relation is not examined in detail in the book. An instructor should review this relation in class before assigning these problems.

6-1. What four basic conditions characterize a competitive market?

- **A large number of either actual or potential buyers and sellers.**
- **Product homogeneity.**
- **Rapid dissemination of accurate information at low cost.**
- **Free entry and exit in the market.**

6-2. The short-run marginal cost of the Ohio Bag Company is  $2Q$ . Price is \$100. The company operates in a competitive industry. Currently, the company is producing 40 units per period. What is the optimal short-run output? Calculate the profits that Ohio Bag is losing through suboptimal output.

**The optimal short-run output is where marginal cost = marginal revenue (in this case price). Therefore, the optimal output is 50 units. Current profits are  $TR - TC = \$4,000 - \$1,600 = \$2,400$ . Note: assuming no fixed costs, total costs are equal to the area under the marginal cost curve (area =  $1/2BH$ ). Profits with optimal output =  $\$5,000 - \$2,500 = \$2,500$ . The firm is forgoing \$100 through suboptimal output choice.**

6-3. Should a company ever produce an output if the managers know it will lose money over the period? Explain.

**The firm should operate in the short run, as long as it obtains enough revenue to cover its variable costs. Revenue in excess of variable costs helps to cover fixed costs (which are incurred even if the firm does not operate).**

**Market Organization** Roland S. Vaile, 1930 Excerpt from *Market Organization An Introductory Course* The authors have had three reasons in mind for undertaking the present work in the dynamic situation with respect to marketing requires frequent up to date presentation 2 the architectural design of the book is a new and we believe a useful approach to a course in marketing 3 current writings in the field of marketing are so voluminous and contradictory that a winnowing of some of the wheat from some of the chaff has seemed worth while In all marketing there is a group of functions which must be performed The method of performance will differ somewhat for different commodities but an appreciation of the functions seems essential to an understanding of market 1ng Variations between the institutions which grow up for the handling of each commodity result from these differences between the commodities themselves About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
