Legalize Blockchain Thomas G. Duenser, 2023-03-23 In the last decades digitalization has been enormously pushing innovation with a stunning impact on economy and society In this book the author illustrates that blockchain is one strong driver of the future digital economy enabling a higher level of efficiency trust and legal security As regulation can decide how a jurisdiction can participate in this development the author discusses the current and future regulatory challenges and explains why applying financial market laws for all Token Economy is not appropriate and would hinder its development Consequently he argues for a new regulatory fundament for Token Economy as the Principality of Liechtenstein has introduced in 2020 and explains the political regulatory decisions of the so called Blockchain Act The author pleads also in

favour of establishing a new regulatory framework for Token Financial Markets and drafts its cornerstones In addition to that he describes the need for an innovation process for the legal framework and emphasizes the importance of the innovation culture of governments and authorities to keep pace with the technological developments and ensure future prosperity

The Challenges and Trends of Deploying Blockchain in the Real World for the Users' Need Chun-Wei Chiang, Eber Betanzos, Saiph Savage, 2019 Abstract Blockchain technology is a decentralized and open database maintained by a peer to peer network offering a trustless trust for untrusted parties Despite the fact that some researchers consider blockchain as a bubble blockchain technology has the genuine potential to solve problems across industries In this article we provide an overview of the development that Blockchain technology has had in 2018 and point out the challenges of deploying blockchain based applications in the real world from a Human Computer Interaction view We propose that blockchain practitioners should design blockchain applications from users perspective think about who the users are and what they need Furthermore we also lay out possible future trends for blockchain based systems
