**Practice Skills for MUET (Malaysian University English Test)** Cheu Kui Low, 2008      Critical Perspectives on Language and Discourse in the New World Order Faiz Sathi Abdullah, Mardziah Hayati Abdullah, Tan Bee Hoon, 2009-10-02

The papers in this book explore language use in a broad range of discourse fields. They provide theoretical perspectives on global orientations to social, political, and economic transformations in the New World Order (NWO) and extend these with studies on the impacts of such transformations at the local, national, regional, and global levels. The discussions highlight current concerns among academics and political commentators about the potential social impact of representations of the NWO in language and discourse. The present work is important in raising social consciousness towards the central role that language and discourse play in the construction of shifting multiple identities. In this way, the roles of critical discourse analysis and indeed that of the analysts themselves are emancipative and socially transformative. The value of such consciousness-raising for potential social action in language user empowerment terms cannot be overstressed, particularly given the ascendant position of the English language in the NWO. This collection is a significant contribution to the ongoing critical discussion on global order and discourse.

*English Language Proficiency Testing in Asia* Lily I-Wen Su, Cyril J. Weir, Jessica R. W. Wu, 2019-11-19

As the demand for English language education grows in Asia, there has been a parallel growth in the development and implementation of standardized tests at the local level. Offering much-needed context on locally produced tests in Asia, contributors examine emerging models for English language assessment and the impact these large-scale tests have on the teaching and learning of English. Chapters address the following well-known and developing high-stakes tests in different regions across Asia: the GEPT, the TEPS, the VSTEP, the CET, the EIKEN, and TEAP, and the ELPA. Brought together by world-renowned testing assessment scholar Cyril Weir and the Language Training and Testing Center (LTTTC), one of Asia's leading testing institutions based in Taiwan, this volume is a useful reference for evaluating, developing, and validating local tests of English and their societal impact. Comprehensive and research-based chapters cover historic backgrounds, sociocultural contexts, test quality, international standing, and future considerations. Ideal for graduate students, researchers, and scholars in language assessment, TESOL, TEFL, and applied linguistics, this book will also be of interest to language teaching professionals, language test developers, and graduate students in Asian studies and international education, intercultural communication, and intercultural studies.
