Basic Writings Of Existentialism:

Basic Writings of Existentialism Gordon Marino, 2007-12-18 Edited and with an Introduction by Gordon Marino Basic Writings of Existentialism unique to the Modern Library presents the writings of key nineteenth and twentieth century thinkers broadly united by their belief that because life has no inherent meaning humans can discover we must determine meaning for ourselves This anthology brings together into one volume the most influential and commonly taught works of existentialism Contributors include Simone de Beauvoir Albert Camus Fyodor Dostoevsky Ralph Ellison Martin Heidegger Soren Kierkegaard Friedrich Nietzsche Jean Paul Sartre and Miguel de Unamuno y Jugo Summary of Gordon Marino's Basic Writings of Existentialism Everest Media, 2022-05-15T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Soren Aabye Kierkegaard was the father of existentialism He was born in Copenhagen in 1813 He entered the University of Copenhagen in 1830 but it took him more than a decade to finish his degree He passed his exams in 1840 and a year later completed his dissertation On the Concept of Irony With Constant Reference to Socrates 2 Kierkegaard wrote about the relation between ethics and religion and he suggested that faith was about the attempt to follow Christ in his self denial suffering and ultimately in his humiliation He no longer wanted to participate in making a fool of God 3 The ethical is the universal and it applies to everyone at all times It is immanent in itself and has nothing outside itself that is its end but it is its own end The single individual sensuously and psychically qualified in immediacy is the individual who has his end in the universal 4 Faith is the paradox that the individual is higher than the universal yet justified before it It is a higher position that cannot be mediated and yet it exists eternally It is this paradox that Abraham believed in and it is this paradox that makes faith exist **Existentialism** Charles B. Guignon, Derk Pereboom, 2001-01-01 Together with the editor's thoughtful introductions the central existential writings of Kierkegaard Nietzsche Heidegger and Sartre included in this volume make it the most substantial anthology of existentialism available Without shortening any of the selections offered in the first edition the second edition adds valuable context by presenting two additional selections by philosophers who had a profound impact on the development of existentialism Hegel and Husserl **BASIC WRITINGS OF EXISTENTIALISM (INTERLOAN 353777)**. , Existentialism from Dostoevsky to Sartre Walter Kaufmann, 1975-03-01 One of the foremost resources on existentialism from renowned philosopher poet and Nietzsche translator Walter Kaufmann a must read for philosophers both armchair and professional Existentialism from Dostoevsky to Sartre provides basic writings of Dostoevsky Kierkegaard Nietzsche Rilke Kafka Ortega Jaspers Heidegger Sartre and Camus including some not previously translated along with an invaluable introductory essay by Walter Kaufmann Jean-Paul Sartre Jean-Paul Sartre, 2001 This first collection of Sartre's key philosophical writings provides an indispensable resource for all students and readers of his work which has been extremely influential in philosophy literature and politics **Existentialism from Dostoevsky to Sartre** Walter Arnold Kaufmann, 1960 Existentialism from Dostoevski to Sartre Walter Kaufmann, 1957 *Emotional Amoral*

Egoism Nayef R.F. Al-Rodhan,2022-01-01 What makes us who we are Are we born good or evil Do we have free will What drives our behaviour and why Can technology change what it means to be human In this thoroughly revised second edition of Emotional Amoral Egoism Professor Nayef Al Rodhan demonstrates the impact of our innate predispositions on key issues from conflict inequality and transcultural understanding to Big Data fake news and the social contract However it is the societies we live in and their governance structures that largely determine how we act on our innate predispositions Consequently Al Rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever present tension between the three attributes of human nature Emotional Amoral Egoism and the nine critical needs of human dignity This book is a perfect resource for enlightened readers academics and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace security and prosperity solutions for all at all times and under all circumstances *The Philosophy of David Lynch* William J. Al-Rodhan,2022-01-27 Sustainable History and the Dignity of Man is a new philosophy of history This volume outlines how sustainable history is propelled by good governance which balances the tension between the attributes of human nature emotionality amorality and egoisms and human dignity needs such as reason security human rights accountability transparency justice opportunity innovation and inclusiveness The author proposes minimum criteria for good governance that are sensitive to local cultures and histories but meet certain common global values to ensure maximum and sustainable moral and political cooperation Using an ocean model of a single collective human civilisation the author argues that we should think in terms of a common human story that is comprised of multiple geo cultural domains and sub cultures with a history of mutual borrowing and synergies The author argues that today all geo cultural domains must succeed if humanity as a whole is to triumph This collective triumph will also depend on reason and a recognition that a great deal of knowledge is indeterminate and may be temporally spatially and perhaps culturally constrained as is outlined in the author s new theory of knowledge Neuro rational Physicalism Dr Nayef R F Al Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy Geneva Switzerland This book is an exceptionally wide ranging examination of past and present approaches to the securing of a qualitatively adequate social life on the planet The need for intercultural dialogue is pressing and stated as a matter of urgency in the text That argument is well presented and it is helpfully accompanied by a large amount of empirical evidence The book is also a strong and ethically attractive humanist statement about the value of human interaction that incorporates a vision of mutual respect based on a mixture of scientific arguments and normative aspirations
