Elegant Solutions to Computer Science Problems , **Integrated Formal Methods** Nikolai Kosmatov, Laura Kovács, 2024-11-12 This volume LNCS constitutes the refereed proceedings of the 19th International Conference on Integrated Formal Methods IFM 2024 during 13-15 November 2024 held in Manchester UK. The 19 full papers presented in this volume were carefully reviewed and selected from 58 submissions. The conference focuses on all aspects of the design of integrated techniques including language design, verification and validation, automated tool support, and the use of such techniques in software engineering practice.

**Bayesian Reasoning and Machine Learning** David Barber, 2012-02-02 Machine learning methods extract value from vast data sets quickly and with modest resources. They are established tools in a wide range of industrial applications including search engines, DNA sequencing, stock market analysis, and robot locomotion, and their use is spreading rapidly. People who know the methods have their choice of rewarding jobs. This hands-on text opens these opportunities to computer science students with modest mathematical backgrounds. It is designed for final year undergraduates and master's students with limited background in linear algebra and calculus. Comprehensive and coherent, it develops everything from basic reasoning to advanced techniques within the framework of graphical models. Students learn more than a menu of techniques; they develop analytical and problem-solving skills that equip them for the real world. Numerous examples and exercises, both computer-based and theoretical, are included in every chapter. Resources for students and instructors, including a MATLAB toolbox, are available online.

**Project Intelligence: AI-Enabled Decision & Execution in the Built Environment** Chirag Soni, 2025-10-21 It is with great happiness that I would like to acknowledge a great deal of people that get helped me extremely through the entire difficult, challenging but a rewarding and interesting path towards some sort of Edited Book without having their help and support, none of this work could have been possible.
