Integrating Research and Education National Research Council, Division on Earth and Life Studies, Board on Life Sciences, Planning Group for the Workshop on Integrating Education in Biocomplexity Research, Bridget K. B. Avila, 2003-06-02 The workshop summary provides guidance for researchers applying to the National Science Foundation NSF for funding New NSF guidelines require applications to address the broader impact of the proposed research Presentations at the workshop provided ideas on how to do this by engaging in undergraduate education K 12 education or public outreach via museums or journalists The workshop summary discusses issues to consider in choosing an appropriate collaborator for the education or outreach component of the project and how to build in methods for assessing the success of the project It also provides lists of resources helpful in writing education proposals and discusses the similarities between research in education and scientific research *Undergraduate Research for Student Engagement and Learning* Joseph L. Murray, 2017-08-09 There is growing interest in undergraduate research given its benefits to students faculty members and the institution For higher education scholars faculty and administrators this book logically synthesizes the literature to demonstrate its impact on facilitation of learning and engagement and to chart a course for expanding and improving these opportunities This book provides a comprehensive overview of undergraduate research as a high impact practice in postsecondary education from its theoretical underpinnings and research base to student participation and faculty incentives This important resource offers analysis of the current state of undergraduate research explores challenges and unresolved questions affecting undergraduate research and provides implications for research and practice **A Guide for Proposal Writing** National Science Foundation (U.S.). Division of Undergraduate Education, 1998 **Technical Communication** Mike Markel, Michael H. Markel, 2009-02-03 Comprehensive and truly accessible Technical Communication guides students through planning drafting and designing the documents that will matter in their professional lives Known for his student friendly voice and eye for technology trends Mike Markel addresses the realities of the digital workplace through fresh samples and cases practical writing advice and a companion Web site TechComm Web that continues to set the standard with content developed and maintained by the author The text is also available in a convenient affordable e book format **Technical Communication** Michael H. Markel, Mike Markel, 2012-01-04 This volume provides students with accessible and easy to follow strategies for tackling the major types of documents from writing reports to job applications Interactive exercises are included to provide engaging scenarios for writing practice *FastLane* Thomas J. Misa, Jeffrey R. Yost, 2016-01-15 The unique history and development of FastLane the central nervous system of the National Science Foundation Since 2000 the National Science Foundation has depended upon its pioneering FastLane e government system to manage grant applications peer reviews and reporting In this behind the scenes account Thomas J Misa and Jeffrey R Yost examine how powerful forces of science and computing came together to create this influential grant management system

assessing its impact on cutting edge scientific research Why did the NSF create FastLane and how did it anticipate the development of web based e commerce What technical challenges did the glitch prone early system present Did the switch to electronic grant proposals disadvantage universities with fewer resources And how did the scientific community help shape FastLane Foregrounding the experience of computer users the book draws on hundreds of interviews with scientific researchers sponsored project administrators NSF staff and software designers developers and managers **Engaging Undergraduates in Publishable Research: Best Practices** Traci A. Giuliano, Jeanine L. M. Skorinko, Marianne Fallon, 2019-11-20 Although many articles and books have been written about conducting research with undergraduates there is a dearth of research on the process of publishing with undergraduates Thus in this research topic we assembled a collection of 43 articles from 98 researchers worldwide who are passionate about and have had success in publishing high quality peer reviewed journal articles with undergraduates The diverse articles represent a wide range of practices to help researchers publish with undergraduates including structuring the curriculum to promote undergraduate research and publication optimizing research experiences for undergraduates training students in implementing advanced techniques accessing special populations or conducting research in off campus settings addressing institutional and career challenges for faculty and increasing inclusion and diversity Each article provides a unique and diverse perspective that nevertheless resonates across contexts and situations We hope that the ideas models techniques and practices in these articles will motivate and inspire readers to begin continue or rethink how they engage undergraduates in publishable research we also hope to stimulate empirical and quantitative research on the effectiveness of these ideas models techniques and practices
