be it is also regarded inevitable for the rest of the world as increasing populations long for more territories and resources The criticism in the novel primarily centers on how this expansion takes place namely in a destructive and exploitative way Bradbury reveals the tensions between inhabitants of Earth and those of Mars thus questioning the Earthmen s reckless behavior towards native Martians which serve as a symbol for Native Americans Moreover the author criticizes mankind s irresponsible exploitation of the resources they have been given on Earth and their ability to destroy nature without even realizing or considering the terrible outcome The issues to be discussed in the following are those of imperialism environmental destruction and racism all being rooted in the mythology of the American westward expansion and the Frontier spirit By large Bradbury s novel also reflects the anxieties of the early 1950s namely the fear of a nuclear war and the emergence of the Civil Rights movement A significant basis for the interpretation of *The Martian Chronicles* is the approach to the story as an allegory for man s immoral blindness in the light of the manifest destiny and the frontier spirit
