The Jordanian Labor Market Caroline Krafft,Ragui

Assaad, 2019-09-19 Jordan stands in the middle of a turbulent region experiencing substantial refugee flows and economic challenges due to the conflict and insecurity of its neighbors. The Jordanian Labor Market Between Fragility and Resilience fills an enormous gap in our knowledge regarding the region's labor market during a period of substantial instability and new challenges for Jordan. Prior to the refugee crisis, the Jordanian economy and labor market had been shifting in a positive direction. An enormous influx of Syrian refugees, however, created unanswered questions of how the region's labor market would fare. The Jordanian Labor Market leverages the 2016 Jordan Labor Market Panel Survey to provide answers to some of these questions. It offers an unprecedented opportunity to assess the challenges that Jordan faces. It addresses key economic and policy questions through unparalleled nationally representative data. The Jordanian Labor Market presents critical new insights into the status of migrants and refugees in Jordan. It examines key indicators of the labor market including labor supply, job creation, wages, and inequality, and self-employment. It also looks at transitions across the life course in Jordan, such as education, school to work transition, marriage, and fertility, housing, and new households, and social insurance, and retirement. These factors provide important insight into important challenges Jordan's economy and society faces.

Foreign Operations, Export Financing, and Related Programs Appropriations for 1995. United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 1994. [How Close is Close? Assessing Uganda's Progressive Refugee Policy in the Era of COVID-19](#)

Marco d'Errico, Donato Romano, Paul Winters, 2024-12-02 Uganda is home to 1.5 million refugees from DRC, Burundi, South Sudan, and other countries. The Uganda political framework is one of the most progressive and inclusive toward refugees. Only a fraction of the refugees is likely to go back to their home countries. This book assesses Uganda's progressive refugee policy with reference to how it functioned in the era of COVID-19 using a unique panel data collected between 2017 and 2021. The Uganda Refugee Policy 2006 and the Refugee Regulations 2010 grant refugees wide-ranging rights that include allocating land for agriculture purposes, freedom of movement, and the right to seek employment. However, the magnitude and the speed of influx of refugees in recent years have posed critical challenges to the sustainability of these progressive policies. On top of this, unpredictable and unprecedented crises have emerged, such as COVID-19 and the Ukraine war, that have threatened food security and the resilience of livelihoods, value chains, and food systems. The chapters in this book assess Uganda's progressive refugee policy with reference to how it functioned in the era of COVID-19. They focus on the following three main areas: i) the economic relationship and coexistence between host and refugees communities; ii) the success and sustainability of the current model of assistance; and iii) the response to COVID-19 on communities' welfare and long-term prospects. Addressing these issues is possible due to a unique panel dataset of thirteen refugee settlements and neighboring host communities specifically collected for these purposes. Investigating the economic consequences of the integration between host and refugees communities and offering new evidence with specific reference to Uganda, this book will be a key resource for scholars.
