Operations and Maintenance Best Practices Department of Energy, 2010-08-31 Release 3 Prepared by Pacific Northwest National Laboratory for the Federal Energy Management Program U S Department of Energy If you like this book please leave positive review Overall this guide highlights O M programs targeting energy and water efficiency that are estimated to save 5% to 20% on energy bills without a significant capital investment Depending on the Federal site these savings can represent thousands to hundreds of thousands dollars each year and many can be achieved with minimal cash outlays Why buy a book you can download for free First you gotta find it and make sure it's the latest version not always easy Then you gotta print it using a network printer you share with 100 other people and it's outta paper and the toner is low take out the toner cartridge shake it then put it back If it's just 10 pages no problem but if it's a 250 page book you will need to punch 3 holes in all those pages and put it in a 3 ring binder Takes at least an hour An engineer that's paid 75 an hour has to do this himself who has assistant's anymore If you are paid more than 10 an hour and use an ink jet printer buying this book will save you money It's much more cost effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material We publish compact tightly bound full size books 8 by 11 inches with glossy covers 4th Watch Books is a Service Disabled Veteran Owned Small Business SDVOSB For more titles published by 4th Watch Books please visit cybah webplus.net UFC 2 100 01 Installation Master Planning UFC 3 120 01 Design Sign Standards UFC 3 101 01 Architecture UFC 3 440 01 Facility Scale Renewable Energy Systems UFC 3 201 02 Landscape Architecture UFC 3 501 01 Electrical Engineering UFC 3 540 08 Utility Scale Renewable Energy Systems UFC 3 550 01 Exterior Electrical Power Distribution UFC 3 550 07
