## **Case Study About Rfid System In Library Services:**

**Proceedings of International Seminar on Application of Communication and Information Technology in Library** Anirban De, Tanushyam Bhattacharjee, Debranjana Sarkar, 2014-07-09 The proceeding focuses on the adoption and use of information and communication technology that have resulted in the globalization of information and knowledge resources in modern libraries. The diverse set of technological tools and resources to create, communicate, disseminate, store, and manage information have been discussed. Other topics include semantic tools and techniques, collection development, data and content management in digital era, the role of the digital librarian, and the next generation library management ethics for professionals, licensing issues, information access repository projects for organizations. The book covers information management problems and prospects of digitization in scientific institutes, emerging technologies in e-library technology, enhanced e-learning, ethics for library professionals, users in the digital environment, technology-enhanced services in digital environment. Management of Digital Information Resources (A Festschrift in Honour of Dr. K. Nageswara Rao) Mr. Sudhanshu Bhushan, Dr. V. Senthil, Ms. Dipti Arora, 2024-12-20 This festschrift is in honour of Dr. K. Nageswara Rao. Dr. K. Nageswara Rao was born on 25th December 1964 in Andhra Pradesh and obtained his B.Sc. from SV Arts College Tirupati in 1986. He was awarded M.Sc. Physics by SV University Tirupati in 1988. He completed BLISc and MLIS from SV University and Annamalai University in the years 1990 and 1992 respectively. He was awarded Ph.D. by the University of Mysore in 2009. In addition, he has also obtained PGDCA from Jawaharlal Nehru Technological University Hyderabad in the year 1991. He started his career as Scientific Technical Assistant A in National Informatics Centre Hyderabad in 1993 and after two years of service, he joined Naval Physical Oceanographic Laboratory Kochi as Scientist B in 1995. Then he moved to Defence Research Development Laboratory DRDL Hyderabad in 1999. He was promoted as Scientist G in 2017 and served as Technology Director in DRDL till August 2021. Later, he was appointed as Director, Defence Scientific Information Documentation Centre DESIDOC Delhi in September 2021 and promoted as Outstanding Scientist in October 2024. He authored more than 20 articles in journals and conferences. Under his guidance, two candidates were awarded Ph.D. Degree from Osmania University Hyderabad. Dr. K. Nageswara Rao served as Editor in Chief of the Defence Science Journal, Defence Life Science Journal, and DESIDOC Journal of Library Information Technology and DRDO Monographs series. **Advances in Communication Systems and Networks** J. Jayakumari, George K. Karagiannidis, Maode Ma, Syed Akhter Hossain, 2020-06-13 This book presents the selected peer-reviewed papers from the International Conference on Communication Systems and Networks ComNet 2019. Highlighting the latest findings, ideas, developments, and applications in all areas of advanced communication systems and networking, it covers a variety of topics including next-generation wireless technologies such as 5G, new hardware platforms, antenna design, applications of artificial intelligence (AI), signal processing, and optimization techniques. Given its scope, this book can be useful for beginners, researchers, and professionals working in

wireless communication and networks and other allied fields      **Handbook of Research on Inventive Digital Tools for Collection Management and Development in Modern Libraries** Thanuskodi, S.,2015-07-17

The quality of library collections depends heavily on the initial assessment requirements. An accurate assessment assists with meeting the goals and missions of the library but the introduction of digital media and resources is accompanied with new challenges in measuring the effective use of the library's collection. The Handbook of Research on Inventive Digital Tools for Collection Management and Development in Modern Libraries details how libraries strive to bridge traditional collections with their new digital counterparts. Providing real world examples and analysis of the modern library, this publication is a timely reference source for professionals and researchers in the fields of library and information science as well as executives interested in information and organizational development.

Serving Library Users from Asia John Hickok,2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. While books on serving other target groups in libraries have been published e.g. disabled, Latino seniors etc, few books on serving library users of Asian heritage have been written. Thus the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters, each on 24 specific Asian countries, cultures of East, Southeast and South Asia, with a wealth of resources for understanding, interacting with, outreaching to, and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers nationwide, cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries: public, school, and academic, making this book valuable for all librarians. The demographics of each Asian culture, numbers, and distribution, plus history of immigration and international student enrollment, is also featured. As a bonus, each chapter spotlights a US public school and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more of public school and academic libraries are all discussed with detailed documentation. Country conditions influencing libraries and library use are also described, literacy levels, reading cultures, languages, and writing systems, educational systems, and more. Based on the author's 15 years of research and travels to Asia, this work is a must-have for all librarians.

**Modern Technologies for Reshaping Libraries in the Digital Era** Sivasankar Prasad,2017-07-10 Anthology from the year 2017 in the subject Library Science, Information Documentation Science, University of Delhi, language English, abstract. There are a variety of challenges facing the LIS profession owing to the rapidly changing technologies and environment in which it exists. Recent developments in ICT, the web, and social media have led to the creation of digital resources and its access through online, as well as remote login. Librarians need to be tech-savvy professionals who can take all their professional skills and experience and adapt them in order to align library services with the changing demands of the library user community. Written by practicing library professionals and librarians, this book

focused primarily on topics related to new technologies featuring a range of significant issues in current library and information science Some of the topics included are digital consortia information literacy e books Web 2 0 RFID plagiarism mobile technologies the Consortium for Educational Communication E Learning Cloud Computing and Green Libraries

*An Analysis of the Radio Frequency Identification (RFID) Technology Implementation Within an Independent Public Library System* Keith Lyons,2010 Public libraries require efficient control systems to maintain accurate inventories statistics and records of patron borrowing Generally public libraries use barcode technology to accomplish these tasks Radio frequency identification RFID has gained the attention of public library personnel in recent years as a replacement for barcodes RFID implementation contributes to improved staff productivity increased operational efficiency and improved item security as well While potential benefits are significant issues to consider prior to adoption include system costs as well as privacy and security concerns As a consequence of increased patron use and limited budgets the role of RFID in the public library is promoted as a solution to many of today s challenges RFID in the public library can assist by improving inventory tracking improving customer service and decreasing theft Using the case study methodology in conjunction with the System Development Life Cycle SDLC the author examined RFID use at the North Canton Public Library and its capabilities in improving inventory tracking providing item security and supporting customer service Qualitative data were collected using focused interviews documentation direct observation and participant observation Findings from this investigation revealed a significant decrease in time required to perform inventory tasks and an increase in time available for library staff to assist patrons Additionally evidence demonstrated an increase in the efficiency of patron records due to the automation of the checkout process Patron privacy and data security were maintained by adherence to RFID implementation guidelines established by the American Library Association ALA The findings from this investigation provide public library administrators considering adoption of RFID with a thorough understanding of pre implementation considerations and the benefits drawbacks logistical concerns and privacy issues that must be addressed for successful results **Library**
