ExamREVIEW,2012-09-23 In the practical real world a CPP may be a security manager an external consultant or a law  
enforcement agent For purpose of the exam however you want to position yourself as a hired consultant one who acts as an  
advisor to the company management The company is your client and you are helping it out You advise you guide and you  
recommend You need to understand your client If your client is absolutely new to security full scale interviews and statistical  
analysis on crimes may be necessary However if your client has a working security mechanism in place then you should  
conduct assessment basing primarily on inputs from management In other words management determines the depth and  
scope of the security project Management makes the decisions You suggest ways to improve then carry out the decisions  
made by management You don t normally make decisions for your client It is safe to say that you assume the role of project  
manager for your client s security project The security project would start by discussing the scope of work with your client  
The most important meeting between you and the client would be the initial goal setting and policy review meeting Senior  
management is going to get involved and you are going to act as the facilitator From this meeting you become aware of the  
level of risk your client is willing to assume and accept Your work would then start from there When working on a project it is  
important to understand the background and operation of the client You also want to know what you are up against  
Protection against vandalism is totally different from protection against terrorist attack A CPP is more on the planning and  
management side of security A security guard professional on the other hand is to provide client with professional protective  
services It is believed that the CPP certification is more general in nature while the PSP certification is way more specific and  
in depth in physical security To summarize the major knowledge areas include Security Principles and Theories Business  
Principles Personnel Security Physical Security Information Security Crisis Management Investigations Legal Matters We give  
you knowledge information relevant to the exam specification To be able to succeed in the real exam you ll need to apply  
your earned knowledge to the question scenarios Many of the exam questions are written to be less straight forward They
