Student: \_\_\_\_\_

- Which of the following is included in the labor force?
  - A student who is still in school but not working or looking for work.
  - A part-time store clerk who is looking for another job.
  - A person who voluntarily runs a charity.
  - A person who spends the entire day taking care of his or her own young children at home.
- Who among the following is included in the labor force?
  - A hardworking homemaker who does not want to be employed outside the home.
  - A man doing 10 years in prison for armed robbery.
  - The president of Microsoft.
  - A retired commander of the armed forces.
- People are *not* part of the labor force when they
  - Go on vacation.
  - Are old enough to work but choose not to work.
  - Suffer from a temporary illness that keeps them away from their job.
  - None of the choices are correct.
- The labor force participation rate is the number
  - Of unemployed divided by the number of employed.
  - Of employed divided by the number in the labor force.
  - Of employed divided by the total population.
  - In the labor force divided by the working-age population.
- When the labor force participation rate is declining, the
  - Unemployment rate is rising faster than the total population rate.
  - Percentage of the working-age population that is outside the labor force is declining.
  - Percentage of the working-age population that is willing and able to work is declining.
  - Percentage of the total population that is employed is rising.
- Jack graduated from college last month, but he has not yet started looking for a job. Jack is
  - Frictionally unemployed.
  - Structurally unemployed.
  - A discouraged worker and is part of the unemployment statistic.
  - Not part of the labor force and is not counted in the unemployment rate.
- Production possibilities are the
  - Alternative combinations of output that can be produced using all available resources and technology.
  - Various production methods that producers can employ.
  - Various types of input that each manufacturing facility can choose to employ.
  - Percentage of output produced by each worker.
- As of 2010, approximately what percentage of the U.S. population participated in the civilian labor force?
  - 30 percent.
  - 40 percent.
  - 50 percent.
  - 60 percent.
- For the labor force to definitely increase,
  - There must be an increase in total population.
  - There must be an increase in immigration.
  - People must turn from being discouraged workers into people actively seeking employment.
  - None of the choices are correct.
- If a nation experiences a year of unusually high immigration that increases the size of the labor force, we can conclude that the
  - Nation will choose a different point on the production possibilities curve.
  - Nation's production possibilities curve will shift outward.
  - Nation's production possibilities curve will shift inward.
  - Nation's capital per worker will rise.
