simultaneously providing substantive contributions to the field that will be of interest to even the most experienced researchers. It serves as a user-friendly teaching tool suitable for a range of undergraduate or graduate courses as well as individuals working on their thesis or other research projects. With a focus on methodological instruction, this volume offers both a retrospective and prospective view of the field. The first two sections explore the history of the field, ethics, and philosophical/theoretical approaches. The next three sections focus on the major methods of qualitative practice as well as newer approaches such as arts-based research and internet research. Areas often excluded, such as museum studies and disaster studies, and mixed methods and participatory methods such as community-based research are included. The next section covers key issues including data analysis, interpretation, writing, and assessment. The final section offers a commentary about politics and research and the move towards public scholarship. *Documentation Abstracts*, 1998 **Maxcy-Rosenau-Last**
