extremely high in omega 6s and low in Omega 3s Raw foodists are not the only ones lacking sufficient Omega 3s in their diet Because Omega 3s are easily damaged by heat anyone whose diet is high in processed foods and oils probably has an Omega 3 deficiency Many symptoms of this deficiency can be mistaken for other health problems or nutrient deficiencies so few people realize the cause of their ailments Boutenko s chapters on omegas provide readers more in depth nutritional information One hundred recipes from raw to steamed and lightly cooked dishes from appetizers to desserts offer readers the means to enjoy a more sustainable healthy and energetic lifestyle
