

CCNA Security 1.2

Scope and Sequence

Last Updated 25 June 2014

Target Audience

The Cisco CCNA® Security course is designed for Cisco Networking Academy® students seeking career-oriented, entry-level security specialist skills. This includes individuals enrolled in technology degree programs at institutions of higher education and IT professionals who want to enhance their core routing and switching skills.

CCNA Security provides a next step for Cisco CCENT® or CCNA Routing and Switching students who want to expand their skill set to prepare for a career in network security.

Prerequisites

CCNA Security students are expected to have the following skills and knowledge:

- CCENT-level networking concepts and skills
- Basic PC and Internet navigation skills

Target Certifications

The CCNA Security curriculum prepares students for the Implementing Cisco IOS® Network Security (IINS) certification exam (640-554), which leads to the CCNA Security certification.

Curriculum Description

CCNA Security helps students prepare for entry-level security specialist careers by developing an in-depth understanding of network security principles and the tools and configurations needed to secure a network. This hands-on course emphasizes practical experience and blends both online and classroom learning.

Students complete hands-on activities ranging from procedural and troubleshooting labs to skills integration challenges and model building. All hands-on labs can be completed on physical equipment or in conjunction with the NDG NETLAB solution. Most chapters also include Cisco Packet Tracer-based skills integration challenges.

Curriculum Objectives

The goals of CCNA Security are as follows:

- Provide an in-depth, theoretical understanding of network security
- Equip students with the knowledge and skills needed to design and support network security
- Provide an experience-oriented course that employs industry-relevant instructional approaches to prepare students for entry-level IT security jobs
- Enable significant hands-on interaction with IT equipment to prepare students for certification exams and career opportunities

Upon completion of the CCNA Security course, students will be able to perform the following tasks:

- Describe the security threats facing modern network infrastructures
- Secure Cisco routers
