Advances in Systems, Computing Sciences and Software Engineering Tarek Sobh, Khaled Elleithy, 2007-09-27. Advances in Systems, Computing Sciences and Software Engineering. This book includes the proceedings of the International Conference on Systems, Computing Sciences and Software Engineering (SCSS 05). The proceedings are a set of rigorously reviewed world class manuscripts addressing and detailing state of the art research projects in the areas of computer science, software engineering, computer engineering, systems sciences, and engineering information technology, parallel and distributed computing, and web based programming. SCSS 05 was part of the International Joint Conferences on Computer Information and Systems Sciences and Engineering (CISSE 05). www.cisse2005.org the World's first Engineering, Computing and Systems Research E Conference. CISSE 05 was the first high caliber Research Conference in the world to be completely conducted online in real time via the internet. CISSE 05 received 255 research paper submissions and the final program included 140 accepted papers from more than 45 countries. The concept and format of CISSE 05 were very exciting and ground breaking. The PowerPoint presentations, final paper manuscripts, and time schedule for live presentations over the web had been available for 3 weeks prior to the start of the conference for all registrants so they could choose the presentations they want to attend and think about questions that they might want to ask. The live audio presentations were also recorded and were part of the permanent CISSE archive which also included all power point presentations and papers. SCSS 05 provided a virtual forum for presentation and discussion of the state of the art research on Systems, Computing Sciences and Software Engineering.
