## Topic 7.1: Shifting Power After 1900

### Learning Objective

Explain how internal and external factors contributed to change in various states after 1900.

### Historical Developments

The West dominated the global political order at the beginning of the 20th-century, but both land-based and maritime empires gave way to new states by the century's end.

The older, land-based Ottoman, Russian, and Qing empires collapsed due to a combination of internal and external factors. These changes in Russia eventually led to communist revolution.

States around the world challenged the existing political and social order, including the Mexican Revolution that arose as a result of political crisis.
