Curriculum Innovation in East Asian Schools Huixuan Xu, 2024-11-12 Following closely behind the global pandemic s recent forced challenges to schools and teachers Xu gives an overview of how educational researchers and schools in Asia respond to challenges in times of change Her research focuses on how they adjust or change curriculum policy and practice to find a balance between developing innovation in response to fast changing societal needs and maintaining the existing education systems that traditionally predict success for students In this book curriculum innovation is documented in three themes 21st century skills and competency based curriculum technology supported curriculum and equity in curriculum Xu includes three types of chapters 1 case studies that provide detailed analyses of curriculum innovation at the school or country level 2 conceptual analyses that deepen our understanding of curriculum issues using a new lens and 3 literature reviews that provide an overview of research in particular topics The volume will be of great interest to researchers and educators interested in the role of curriculum innovation in times of change In particular it focuses on the ways innovative curriculum provides opportunities for individual students to maximize their potential while also acknowledging the constraints of local education systems Anthropause Stan Cox, 2026-01-13 A rallying cry to save the Earth with an

anthropause a term that can apply to any broad rollback of economic activity that gives nature room to recover and flourish An iconoclast of the best kind Stan Cox has an all too rare commitment to following arguments wherever they lead however politically dangerous that turns out to be Naomi Klein In the spring of 2020 people worldwide found themselves confined at home in response to pandemic lockdown orders Global carbon emissions suddenly plunged 8.8 percent Air and noise pollution levels plummeted and streams rivers and lakes noticeably became cleaner Animal life quickly filled spaces that humans had deserted Scientists documenting how quickly nature flourished in response to less human activity called the phenomena an anthropause For a moment humanity witnessed the beauty of degrowth In a world obsessed with getting and having more more influence more money more fame more stuff the idea of degrowth seems counterintuitive Yet as environmental catastrophe becomes more widespread and severe degrowth emerges as a necessary collective intervention to protect the living Earth and civilization as we know it from collapse In Anthropause Stan Cox writes that by embracing degrowth we are not turning our backs on progress Instead we are redefining it We can produce enough goods to satisfy everyone's needs Cox argues while liberating ourselves from ecocidal economies and the injustices they impose This book lays out a clear vision of what we will gain and how as we embrace this revolutionary transition We are seeing climate change happening all around us 2024 was the hottest year on record Storms are stronger droughts are longer and wildfires are everywhere As we approach the tipping point toward irreversible climate catastrophe it's clear that we must accept that endless expansion is destructive and reverse it through degrowth Anthropause shows us how we and the living world will flourish if we succeed

**Bare Truths** Nahna James, Nina Dolidze, Lana Charles, Khalees Richard, Deichi Joseph, 2023-01-30

Historically nudism has been rooted in the very active struggles across Western societies for personal freedom and going back to one's natural state but there is something unique in this practice in the Caribbean region particularly in Saint Lucia This study examines the different dimensions of nudism as a practice in Saint Lucia and relates it to the historical context and culture of the island nation Given the context of Saint Lucia having the effects of colonialism African people and Christian beliefs nudism in this context is more than just a lifestyle it is a weaving of one's identity amidst social expectations of decency and traditional views on women's positions in the society However in a Western context nudism is often characterized as a movement of free and public self expression characterized with group living whereas in Saint Lucia it is rather subtle restrained Aside from a few exceptions as pointed out in the publication *The Nude Caribbean Exploring Nudist Culture in the Tropics* people are not free to nude in the streets in St Lucia due to the law as well as the beliefs of the culture The island nudists on the other hand need to contend with the new order in the form of the various customs and rules on the mainland which emphasize more ideal dressing up as published on the unused brochures on nudist tourism scooped out due to the culturalization Also having explored such issues of academic concern as that of *Naked Truths The 20 Labor and Politics of Nudism and Nudity and Identity in Caribbean Tourism* this paper attempts to understand how the natives of St

Lucia practicing nudism manage to construct their personas in a culture where such forms of expression lay on the borders Saint Lucia has its legal and social prohibitions against nudism practices which reveal the battle between the right to self expression and abiding by the cultural expectations with the example of the need that nudists feel to abide by the strict norms of the island The work of Eugene Marshall Tourism Identity and Nudism in St Lucia also emphasizes on this struggle particularly showing how nudism fits into the general picture of identity culture and tourism in Saint Lucia On the other hand the research argues that positive and predominantly socioculturally sensitive nudism in Saint Lucia is not about defiance towards society per se Rather it is about how respondents choose to define themselves which in turn is restrained by the conservative landscape of the given island In this regard the present study also expands on the existing literature on liberal practices formation of self identity and definition of construct within society boldness and its correlation with nudism in complex societies

**Violence Assessment and Intervention** James S. Cawood, Michael H. Corcoran, 2019-10-21 Violence Assessment and Intervention The Practitioner s Handbook now in its third edition provides a proven methodology grounded in the current empirical research and the authors experience in successfully assessing and managing thousands of cases in a variety of contexts and environments for analyzing concerning behaviors and potential threatening situations and taking action in these challenging dynamic environments before tragedy occurs Threat and violence assessment and management is an essential process in reducing violence and its consequences The ongoing challenge for those assessors particularly in common workplace environments e g educational settings public agency settings and business settings is applying the applicable behavioral science research in a practical and effective manner to maximize safety The book begins by demonstrating the threat and violence assessment process from the point of the initial call and proceeds through the steps that quantify the situation and determine the appropriate response The next section covers information gathering victimology and formulas and tools for risk assessment Finally the book explores organizational influences school violence ethics security and consultation issues the formation and running of threat management teams and relevant laws related to violence assessment This book is a valuable reference for human resource professionals security professionals mental health practitioners law enforcement personnel and lawyers who are members of threat assessment teams provide threat and violence assessment and management consultations as well as expert witnesses in cases involving workplace violence school violence security negligence or wrongful termination or disputed school disciplinary actions related to aggressive threatening or violent behavior

Danen,2006-05-12 Cell adhesion is essential for the organization of multicellular organisms Indeed various types of cell

adhesion receptors including cadherins and integrins are present in animals ranging from nematodes and insects to vertebrates. In this book we focus on the integrin family which is shared among all metazoans but has expanded considerably with vertebrate evolution. Since the cloning of the first integrin subunit some twenty years ago integrin biology has been and still is a topic of intense study. Integrin mediated adhesion is a regulated process that in turn regulates the organization of the actin cytoskeleton. Moreover it has become clear from in vitro analyses that integrin mediated adhesion can affect virtually all aspects of cellular behavior including polarity, motility, proliferation, survival and differentiation. This book aims to provide an extensive overview of the current knowledge about the regulation of developmental processes as well as the maintenance of proper tissue function by integrin mediated adhesion. In addition key aspects of integrin cell biology are discussed. Chapter 1 of this book is meant as an introduction in integrin biology and is followed by a more in depth discussion of the roles that integrins play in extracellular matrix assembly, in cell migration and in the regulation of intracellular signaling cascades. Chapters 2-4. Subsequently Chapters 5 and 6 discuss what has been learned about the role of integrins and associated proteins in animal development from genetic analysis of two invertebrates, the flatworm *C. elegans* and the fruit fly *D. melanogaster*. The relatively limited number of genes encoding adhesion related proteins and the relative ease and speed with which genetic experiments can be performed in these animals have allowed researchers to study the basic principles of integrin biology in vivo. Finally Chapters 7-14 discuss how integrin mediated adhesion regulates the development and functionality of the different mammalian organ systems based to a large extent on conditional gene knockout studies in mice and on studies in human patients.
