Architecture's Historical Turn Jorge Otero-Pailos, 2013-11-30 In *Architecture's Historical Turn* Jorge Otero Pailos shows how architectural phenomenology radically transformed the way architects engaged theorized and produced history He reveals how ultimately the rise of architectural phenomenology played a crucial double role in the rise of postmodernism creating the antimodern specter of a historical consciousness and offering the modern notion of essential experience as the means to defeat it **Eight Meditations on Architecture** Juhani Pallasmaa, Alberto Campo Baeza, 2026-05-11 Brings together timeless reflections on architecture's deepest foundations *Eight Meditations on Architecture* offers a rare and illuminating dialogue between two of Europe's most reflective architectural voices Juhani Pallasmaa and Alberto Campo Baeza Through a series of eight essays the book examines eternal architectural themes Beauty Light Time Memory Universality Wisdom Sacred and Essentiality revealing how enduring values shape the practice of building and the meaning of space More than an academic treatise this unique work underscores the necessity of cultural reflection and philosophical grounding in architectural practice Written by architects whose writings are already essential reading in architectural education these meditations offer a rigorous yet poetic inquiry into the discipline Richly illustrated with contributions that interweave theory and personal insight *Eight Meditations on Architecture* provides a space for reflection that is increasingly rare in contemporary discourse one where theory and practice are not opposites but mutually reinforcing paths toward meaningful design A rich intellectual resource that engages deeply with the question of how architecture should be conceived taught and lived *Eight Meditations on Architecture* Offers a unique dual authored format that fosters comparison contrast and layered interpretation Presents an intergenerational perspective grounded in architectural education and practice Features beautiful full color imagery that complements and deepens the essays Bridges diverse cultural and geographical traditions in European architecture Includes meditations that transcend architectural trends focusing instead on timeless values Thoughtfully edited to support both individual reflection and academic discussion *Eight Meditations on Architecture* is a must read for architecture students from undergraduate through graduate levels particularly in courses such as Architectural Design Theory of Architectural Design and Design Thinking It also serves as a thoughtful companion for architects and educators seeking to reconnect practice with enduring theoretical questions **The Fragmenting Force of Memory** Norman Saadi Nikro, 2012-04-25 This study is about experimental forms of cultural production that situate and work through personal experiences of the civil war in Lebanon It addresses selected works of literature autobiography and memoir by Jean Said Makdisi Rashid al Daif Elias Khoury and Mai Ghousseub and the civil war trilogy of documentary films

by Mohamed Soueid From a phenomenological hermeneutic perspective the book is concerned with how they give accounts of themselves as remnants leftovers and undigested remains of the civil war and of related trajectories of ideological attachment to symbolic mandates Constrained to reposition their sense of self from an agent of history to a casualty of history their acutely personal works of cultural production initiate an unraveling of both self and circumstance through the fragmenting force of memory Drawing on a broad range of phenomenological critical theory within the research fields of postcolonial memory psychoanalytic gender and literary studies attuned to subjectivity as a field of social production and exchange emphasis is given to how the writers and filmmaker employ a non presentist anachronic or paratactic register of memory to excavate both a historical understanding of self and related modalities of social viability This concerns how the symptomatic style of their work embodies and creatively and critically situates a refusal to package and normalize any idealized account of the war related assemblages of temporal succession or a presentation of self as discrete and omniscient
