ACTEX Study Manual for SOA Exam C Samuel A. Broverman, 2017

Risk Models and Their Estimation Stephen G. Kellison, Richard L. London, 2011. Much of actuarial science deals with the analysis and management of financial risk. In this text we address the topic of loss models traditionally called risk theory by actuaries, including the estimation of such models from sample data. The theory of survival models is addressed in other texts, including the ACTEX work entitled *Models for Quantifying Risk*, which might be considered a companion text to this one. In *Risk Models and Their Estimation* we consider as well the estimation of survival models in both tabular and parametric form from sample data. This text is a valuable reference for those preparing for Exam C of the Society of Actuaries and Exam 4 of the Casualty Actuarial Society. A separate solutions manual with detailed solutions to the text exercises is also available.
