Nothing Created Everything The Scientific Impossibility Of Atheistic Evolution

Dennis Eidson

Nothing Created Everything The Scientific Impossibility Of Atheistic Evolution:

Nothing Created Everything Ray Comfort, 2009 Richard Dawkins is arguably the modern poster boy for Charles Darwin. However, a key difference radically separates the two men: Darwin believed in the existence of God and calls God the Creator seven times in *The Origin of Species*; Dawkins, in contrast, claims the more you understand the significance of evolution, the more you are pushed towards atheism. It seems Professor Dawkins thinks Charles Darwin didn't understand his own theory. Just months after the 2009 discovery of the supposed missing link, author Ray Comfort turns the tables on evolutionists. In *Nothing Created Everything*, he examines the evidence for evolution and shows it is lacking. He demonstrates that when it comes to explaining how life began, atheists and evolutionists offer faith, not facts. Ironically, atheists insist nothing created everything, a scientific impossibility. In a conversational tone, Comfort speaks to both atheists and believers and urges this discussion be based on hard evidence. And when it is he insists, people will realize evolution is a theory that can't be tested or measured and therefore can't be scientific. *The Defender's Guide for Life's Toughest Questions* Ray Comfort, 2011

Bestselling author and television co-host Ray Comfort has collected some of the toughest questions people will face in defending their faith and offers sound biblical responses. p. 4 of cover. *Jaws Without Teeth* Ray Comfort, 2013-10-01. This brief book, in just a few sentences each, will give you concise common sense responses to those who embrace the foolishness of atheism and the unscientific and unobservable blind faith of evolution. The more than 200 questions and objections in this publication have been adapted from those asked by actual atheists. Blooming Crisis from Failure to Confirm Dennis Eidson, 2026-03-17. With so many crises continually blooming, it becomes difficult to find truth among the barrage of conflicting opinions. What are the 6 Big Lies? How do you identify a lie and how are they affecting you? Where do these Big Lies come from? The book cover shows a world about to fall through the cracks of division and chaos. The number of people living on empty opinions is reaching critical mass, exploding into crisis on issues like abortion and human rights, guns, immigration, morality, God or no God. It has come down to believing either the word of Man, opinion, or the authority of God, the Bible, but not both. Confirmed truth is a foundation to build and structure your life, avoiding strife and division by lies. With the proper tools, truth can be measured, verified, and matched with reality. The evidence given proves what has been verified. Objectifying the inferences being made and validating everything with secondary lines of evidence means the burden of proof has been met. There is no higher argument. Answers for "The Hope That Is in You" Charlie Liebert, 2015-06-23. Charlie Liebert was converted to Christ at age thirty-five from hardcore atheism. Because he understands how atheists think, he effectively spreads the gospel through dialogue with unbelievers. Seeing many fellow Christians paralyzed by fear of not being able to answer their questions, he developed here direct, simple

Bible based answers to those hard questions In his first book Always Be Ready to Give an Answer he proposed a strategy to get to the gospel before answering those hard questions Now its time to answer them The four most common questions are 1 Where did Cain get his wife 2 What happens to a native in the jungle who never heard the gospel Does he go to hell 3 Why do bad things happen to good people and 4 Materialists statements like I only believe in what I can see Faith is for fools Everything is relative there are no absolutes These four questions are each answered in depth to give you firm confidence in your personal evangelism Over one hundred more questions are answered simply and directly The conflict between the Bibles Creation account and the Evolution taught in our schools is analyzed to increase your confidence Your faith will be bolstered by these answers and the analysis of origins You will be empowered in your witnessing and gain great confidence in your faith Yes there are answers to those hard questions Become a fearless evangelist with real answers for the hope that is in you

Without 3 Miracles, Darwin'S Dead! Charlie Liebert,2016-12-19 Without 3 Miracles Darwins Dead will settle the question Is Evolution possible In the mind of the reader and any intelligent open minded person the answer must be Evolution is IMPOSSIBLE because Evolution is NOT science its a faith statement about the past Evolution breaks 3 unbreakable scientific LAWS Evolution has never been observed in a laboratory or in the field but Richard Dawkins said Evolution has been observed Its just that it hasnt been observed when its happening In Evolution all the missing links are still missing In Evolution there are some creatures whose behavior design and amazing complexity cant be explained The history of Evolution contains many frauds Ill highlight two How do Evolution proponents explain these issues Denial rationalization or just plain lying Evolution has

damaging effects on our culture and wastes valuable resources that could be used to improve health and living conditions but millions of our money is spent on research that can NEVER bring any value to mankind The answer to the question Where did we come from can ONLY be We are created in Gods image for purpose We did not come from an explosion of Hydrogen gas and pond scum Truth Seeker ,1925 **Light** ,1912 The Index ,1879 **The Index ...** Francis Ellington Abbot,William James Potter,Benjamin Franklin Underwood,1875 *Without 3 Miracles, Darwin's Dead!* Charlie Liebert,2016-12-19 Without 3 Miracles Darwin s Dead will settle the question Is Evolution possible In the mind of the reader and any intelligent open minded person the answer must be Evolution s IMPOSSIBLE because Evolution is NOT science it s a faith statement about the past Evolution breaks 3 unbreakable scientific LAWS Evolution has never been observed in a laboratory or in the field but Richard Dawkins said Evolution has been observed It s just that it hasn t been observed when its happening In Evolution all the missing links are still missing In Evolution there are some creatures whose behavior design and amazing complexity can t be explained The history of Evolution contains many frauds I ll highlight two How do Evolution proponents explain these issues Denial rationalization or just plain lying Evolution has damaging effects on our culture and wastes valuable resources that could be used to improve health and living conditions but millions of our money is spent on research that can NEVER bring any value to mankind The only answer to the question Where did we come from can ONLY be We are created in God s image for purpose We did not come from an explosion of Hydrogen gas and pond scum **The Theory of Evolution Proved to Me that God Exists** Mark My Words,2020-02-14 The Theory of Evolution proves that God exists The inability of the Theory of Evolution to meet its burden of proof the fact that no part of its denials have ever been experienced or observed or verified in the wild or in the lab points us towards some type of Supreme Intelligence who is the only plausible and parsimonious explanation for the proteins and the genes that exist It is statistically impossible and physically impossible for chance to have designed and created our proteins and the matching genes to go along with those proteins In December 2015 I read a book that proved to me beyond a shadow of a doubt that Materialism Naturalism Darwinism and Nihilism are false Since I already knew that they were false I spent 2016 searching for scientific proof and philosophical proof that they are false Seek and ye shall find I found what I was looking for and this book was one of the results In the first half of 2016 I also interacted with the amateur Philosophers of Science online in an attempt to figure out what everything is and how it works I kept a log of what I was reading experiencing and thinking This book was my initial result I slowly discovered different ways to falsify the Theory of Evolution or Creation by Chance This book represented a huge shift in my worldview or personal philosophy because I used to be a materialist naturalist nihilist and atheist With the different books that I have written I intend to set people free Of course all of this has already been rejected by the materialists naturalists nihilists and atheists but that doesn t matter to me anymore All that matters to me now is the Truths in Science that I have discovered since the day that I chose to switch to observations and lived experiences for my scientific

evidence The Materialists Naturalists Darwinists Nihilists Behaviorists and Atheists have convinced themselves that evolution and entropy are produced by chance alone Chance is the only creative mechanism that these people believe in These people literally believe that chance produced everything that exists in this universe including physical matter this universe our genes our proteins our genomes our brains our eyes our choices our memories this planet the stars and the galaxies These people see nothing wrong with making chance the causal entity behind everything that exists However this chosen belief violates the Primary Axiom of Science and Statistics which states that chance cannot do causation While in college studying Science and Psychology I got heavily involved in the Philosophy of Science I learned how to use the Philosophy of Science to help me determine what is true and what can't possibly be true In the process I developed a new Philosophy of Science that I call Science 2.0 which allows all of the evidence into evidence and pursues a preponderance of that evidence I also use Statistics or Probability as proof of concept in my books The Philosophy of Science and Science 2.0 convinced me that the Theory of Evolution is false by explaining to me why it is false and why it can't possibly be true The Theory of Evolution or design and creation by Natural Selection is physically impossible Natural Selection doesn't do anything except wait for us to die Natural Selection is death which means that evolution is Creation by Death Evolution is also entropy the disorder definition for entropy In other words evolution is Creation by Random Disorder or Creation by Entropy The Theory of Evolution Chemical Evolution and Natural Selection are entropy or death Entropy or death cannot design and create It's physically impossible Entropy evolution or death can only kill us They can't design us engineer us and make us This is obviously true because this is what we actually experience and observe Science 2.0 is based on observation and experience

Science Vs. Evolution Jeffrey David Miller, 2013 Years ago I was told that there is an option that could explain the origin of the universe in a naturalistic way without resorting to God This option was said to be very scientific supported by observation and evidence and yet in direct opposition to the Creation account Evolution was the name given to this option Since I was raised in a Christian home naturally I wanted answers And I wanted them fast I knew that both evolution and Creation could not be true according to the Bible though some have tried to mix the two So which was it I knew that the answer to the question has reaching even eternal implications So I began a scientific journey investigating the evidence to see if the naturalistic model was in fact supported by the evidence This book documents my findings **The Challenge of Evolution** Paul R. Myrant, 2009-04 Can an intelligent person believe that God created the earth in six days and that the universe is just thousands of years old In today's postmodern atmosphere is it rational to believe in God objective truth and moral absolutes Atheistic evolution with its reliance on philosophical naturalism as a major presupposition wants to say that mere chance is the only explanation for the universe Yet is this true Should Christians be forced to abandon their faith just because their college textbook tells them to do so With the onslaught of the New Atheism it is high time for Christians to know what they believe and why they believe it When modern philosophers and scientists mock faith ignore the Creator and

reject the authority of the Word of God Christians need to be armed with the proper tools in order to combat such philosophies Join new author Paul Myrant in *The Challenge of Evolution* as he gives a rational justification for the belief in God and the Bible Students teachers and professors will find Paul Myrant's arguments insightful intriguing and compelling as they search for the truth concerning the origins of the universe Paul Myrant a graduate of Talbot Seminary received his Master of Arts degree in biblical studies He and his wife Jan have been married for 31 years They have four children and three grandchildren He has served as a senior pastor teacher and coach for over three decades Paul's wide range of experiences and interactions with people has prepared him to understand and address the complexities of creationism and evolution

Why Science Does Not Disprove God Amir D. Aczel, 2014-04-15 The bestselling author wields impressive intellectual weapons in demolishing the New Atheists claims that science has disproven the existence of God Booklist starred review The renowned science writer mathematician and bestselling author of *Fermat's Last Theorem* masterfully refutes the overreaching claims of the New Atheists providing millions of educated believers with a clear engaging explanation of what science really says how there's still much space for the Divine in the universe and why faith in both God and empirical science are not mutually exclusive A highly publicized coterie of scientists and thinkers including Richard Dawkins the late Christopher Hitchens and Lawrence Krauss have vehemently contended that breakthroughs in modern science have disproven the existence of God asserting that we must accept that the creation of the universe came out of nothing that religion is evil that evolution fully explains the dazzling complexity of life and more In this much needed book science journalist Amir Aczel profoundly disagrees and conclusively demonstrates that science has not as yet provided any definitive proof refuting the existence of God *Why Science Does Not Disprove God* is his brilliant and incisive analyses of the theories and findings of such titans as Albert Einstein Roger Penrose Alan Guth and Charles Darwin all of whose major breakthroughs leave open the possibility and even the strong likelihood of a Creator Bolstering his argument Aczel lucidly discourses on arcane aspects of physics to reveal how quantum theory the anthropic principle the fine tuned dance of protons and quarks the existence of anti matter and the theory of parallel universes also fail to disprove God An intelligent and stimulating book

The Washington Post **The Return of the God Hypothesis** Stephen C. Meyer, 2019-08-20 The New York Times bestselling author of *Darwin's Doubt* and *Intelligent Design* scholar presents groundbreaking scientific evidence of the existence of God based on breakthroughs in physics cosmology and biology In 2004 Stephen C Meyer one of the preeminent scientists studying the origins of life ignited a firestorm of media and scientific controversy when a biology journal at the Smithsonian Institution published his peer reviewed article advancing the theory of Intelligent Design Then in his two bestselling books *Signature in the Cell* and *Darwin's Doubt* he helped unravel a mystery that Charles Darwin did not address how did life begin and offered further scientific proof to bolster his arguments on the history of life and our origins concluding that life was designed In those previous books Meyer purposely refrained from attempting to answer questions

about who might have designed life Now in The Return of the God Hypothesis he brings his ideas full circle providing a reasoned and evidence based answer to the ultimate mystery of the universe drawn from recent scientific discoveries in physics cosmology and biology Meyer uses three scientific points to refute popular arguments put forward by the New Atheists against the existence of God The evidence from cosmology showing that the material universe had a beginning The evidence from physics showing that from the beginning the universe was been finely tuned to allow for the possibility of life The evidence from biology showing that since the universe came into being large amounts of genetic information present in DNA must have arisen to make life possible In analyzing the evidence from these three fields Meyer reveals how the data support not just the existence of an intelligent designer of some kind but the existence of a theistic creator
