Miko Magic Number:

Miko's Magic Number Ruth Brown,2009 By choosing a number and turning the wheel children learn to do simple addition and subtraction whilst being entertained by Miko and his friends at the circus Working through the book peepholes and flaps maintain the suspense until the very end when Miko s special trick reveals the magic number *The Miko* ,1984

The Bond of Blood Kody Boye,2021-03-27 In a world where magic is dying one young man will change the course of history Odin Karussa has always dreamed of serving in the royal military But gifted with magic and a pair of blood red eyes he has been ostracized by his community since childhood and branded by many as dangerous When a chance meeting with a high mage lands him with an audience with the king it will result in a change that will alter his life forever Donald Schmidt,2006-04-01 The paradigm of Creation Spirituality offers a fresh approach to our spiritual journeys In *Emerging Word* Donald Schmidt provides both an introduction to Creation Spirituality for those who may not be familiar with it as well as a quick history of lectionary use in the Christian tradition and an overview of the church year He then sets out scripture readings for each Sunday and major festival day of the year based on the four paths of Creation Spirituality as outlined by Matthew Fox and others Brief commentary for each set of readings provides rationale for the choice and further invitation to see the world the church the Bible and life in a new way Whether you are familiar with Creation Spirituality or simply curious about some of the emerging paradigms being explored in the church today *Emerging Word* will challenge you Less than a statement *Emerging Word* is more an invitation to wonder to contemplate and to explore the story that the church has told is telling and can tell as it seeks to be relevant in today s world What is our faith story Where is it taking us Where can it take us Those are the questions *Emerging Word* places before us **Shinra Myōjin and Buddhist Networks of the East**

Asian "Mediterranean" Sujung Kim,2019-11-30 This ambitious work offers a transnational account of the deity Shinra My jin the god of Silla worshipped in medieval Japanese Buddhism from the eleventh to sixteenth centuries Sujung Kim challenges the long held understanding of Shinra My jin as a protective deity of the Tendai Jimon school showing how its worship emerged and developed in the complex networks of the East Asian Mediterranean a quality rather than a physical space defined by Kim as the primary conduit for cross cultural influence in a region that includes the Yellow Sea the Sea of Japan East Sea the East China Sea and neighboring coastal areas While focusing on the transcultural worship of the deity Kim engages the different maritime arrangements in which Shinra My jin circulated first the network of Korean immigrants Chinese merchants and Japanese Buddhist monks in China s Shandong peninsula and Japan s mi Province and second that of gods found in the East Asian Mediterranean Both of these networks became nodal points of exchange of both goods and gods Kim s examination of temple chronicles literary writings and iconography reveals Shinra My jin s evolution from a seafaring god to a multifaceted one whose roles included the god of pestilence and of poetry the insurer of painless childbirth and the protector of performing arts *Shinra My jin and Buddhist Networks of the East Asian Mediterranean* is not only the first

monograph in any language on the Tendai Jimon school in Japanese Buddhism but also the first book length study in English to examine Korean connections in medieval Japanese religion Unlike other recent studies on individual Buddhist deities it foregrounds the need to approach them within a broader East Asian context By shifting the paradigm from a land centered vision to a sea centered one the work underlines the importance of a transcultural and interdisciplinary approach to the study of Buddhist deities

A Taste for Distraction Never Hall,2005-07 A Taste For Distraction is a collage of all of what I consider to be my most significant thoughts poems prose beliefs and dreams Those that best describe my self my views The truths of the world in plain words In the beginning writing was my way of coping with the world around me Later it became my way of understanding it Then my way of revealing what I d learned to others as well as a form of expression What you will read in this book are the very thoughts and dreams that make up the plains of my evolution from boy to man from man to human from human to Never What you will learn is the inner most part of me exactly how I view myself and everyone around me And hopefully you will feel the truth of it all This book was not written to make you believe or follow anything you might find here It was written to make you think It was written to make you question why people make it a common practice to shake off the deepest thoughts or the strongest desires and call them daydreams or fantasies It was written to make you question why so many surrender their dreams to settle for something they don t want or don t believe in It was written to make you question why we never say what we really want to say shrug off our truest feelings and shake our heads to say I m sorry I got distracted I can only hope that we are all distracted from time to time Enjoy
