Interaction of Color Josef Albers, 2013-06-28 An experimental approach to the study and teaching of color is comprised of exercises in seeing color action and feeling color relatedness before arriving at color theory *Interacting with Color*
Fritz Horstman, 2024-06-04 The essence of Josef Albers's *Interaction of Color* in a format that engages learners of all ages and levels and encourages a hands-on approach *Interaction of Color* is often presented as an overarching theory of color but it is actually a method of learning how to better see and understand color many of the color exercises illustrated in *Interaction of Color* were devised by Albers's students cutting and pasting looking pondering and learning This workbook companion is a teaching tool designed to enable readers to engage in the kinds of tactile creativity and exploration that characterized Albers's own classroom Focusing on eight of the most important lessons in *Interaction of Color* this book invites readers to learn by doing using only simple materials Core instructions for each exercise are enhanced by additional tips references to Albers's original text and illustrations and stories about how Albers presented the ideas in class The book and exercises are sufficiently nuanced to challenge and inspire seasoned artists designers and educators while also being readily accessible to younger readers and less experienced practitioners [Interaction of Color](#) Josef Albers, 2013
