

Module 2: An Introduction to Conflict Resolution

People often assume that conflict is always negative. This is not true! People are inherently different, and conflict simply happens when those differences come to light. Viewing conflict in this way can help us maximize the possible positive outcomes of the problem at hand. Equipped with a conflict resolution process, people can explore and understand those differences, and use them to interact in a more positive, productive way.

Introduction To Conflict Resolution:

Introduction to Conflict Resolution Sara Cobb, Sarah Federman, Alison Castel, 2019-07-02 The field of conflict resolution has evolved dramatically during the relatively short duration of the discipline's existence. Each generation of scholars has struggled with the major puzzles of their era, providing theories and solutions that meet the needs of the time, only to be pushed forward by new insights and at times totally upended by a changing world. This introductory course text explores the genealogy of the field of conflict resolution by examining three different epochs of the field, each one tied to the historical context and events of the day. In each of these epochs, scholars and practitioners worked to understand and address the conflicts that the world was facing at that time. This book provides a framework that students will carry with them far into their careers, enriching their contributions and strengthening their voices. Rather than a didactic approach to the field, students will develop their critical analytical skills through an inductive inquiry. Students will broaden their vocabulary, grapple with argumentation, and develop critical reading skills.

Conflict Management and Resolution Ho-Won Jeong, 2009-12-04 Conflict Management and Resolution provides students with an overview of the main theories of conflict management and conflict resolution and will equip them to respond to the complex phenomena of international conflict. The book covers these four key concepts in detail: negotiation, mediation, facilitation, and reconciliation. It examines how to prevent, manage, and eventually resolve various types of conflict that originate from inter-state and inter-group competition and expands the existing scope of conflict management and resolution theories by examining emerging theories on the identity, power, and structural dimensions of adversarial relationships. The volume is designed to enhance our understanding of effective response strategies to conflict in multiple social settings, as well as violent struggles, and utilizes numerous case studies, both past and current. These include the Iranian

and North Korean nuclear weapons programmes the war in Lebanon the Arab Israeli conflict civil wars in Africa and ethnic conflicts in Europe and Asia This book will be essential reading for all students of conflict management and resolution mediation peacekeeping peace and conflict studies and International Relations in general Ho Won Jeong is Professor of Conflict Analysis and Resolution George Mason University USA He has published nine books in the field of international relations peace and conflict studies He is also a senior editor of the International Journal of Peace Studies
