- 1 Enhancing Plan Review requirements to include submission for some electric vehicle supply equipment EVSE installations and to include stand alone electric power generating equipment and systems
- 2 Revising demand load calculation for single dwellings with EVSE loads
- 3 Enabling electrification by recognizing other types of energy management systems in addition to electric vehicle energy management system
- 4 Complete rewrite of the installation requirements of energy storage systems ESS at residential occupancies
- 5 Preventing electrical shock hazards with additional requirements for outdoor receptacles for single dwellings
- 6 Preventing overloading in the future by requiring labelling of maximum residential load
- 7 Permitting insulated conductors within an enclosure when connected to different sources of voltage with specific conditions
- 8 Protecting the public with additional GFCI requirements for cords used at midways carnivals fairs and festivals
- 9 Increase in allowable voltages in electric vehicle supply equipment installations

Compliance with the requirements of the latest edition of the OESC is the law for anyone performing electrical installations in the province of Ontario The new OESC is based on the 29th edition of the Canadian Electrical Code Part I which is developed through the efforts of a number of volunteer technical committees and subcommittees representing key electrical industry stakeholders and jurisdictions across Canada Updated every three years in collaboration with safety partners the 2024 OESC reflects changes in technologies and best practices and helps decrease
