Deborah J Short Ph D Director Academic Language Research Training Past President TESOL International Association 2021-22 As a teacher in graduate programs in TESOL I frequently come across the frustration of students at centering their research interests on a particular topic and developing research questions which are worth pursuing so as to make a contribution to the field This frustration stems from the fact that our field is so vast and interrelated that it is often impossible to properly address all that interests them Hence I wholeheartedly welcome this most relevant and innovative addition to the research literature in the field of TESOL and Applied Linguistics Coombe and Mohebbi have created a real tour de force that stands to inform budding researchers in the field for many years to come Additionally the cutting edge depiction of the field and all it has to offer will no doubt update the research agendas of many seasoned researchers around the world The 150 chapters are organized in a most powerful yet deceptively simple way offering a positioning within the topic suggesting questions that might direct inquiry and offering a basic set of bibliographic tools to start the reader in the path towards research What is more the nine sections in which the chapters are organized leave no area of the field unexplored
