

ChemActivity 30

Limiting Reagent (How Much Can You Make?)

Model 1. The S'mores.

A delicious treat known as a S'more is made using the following ingredients and amounts:

- 1 graham cracker
- 1 chocolate bar (10 marshmallows)

At a particular camp, there were more hot marshmallows than graham crackers, marshmallows were given out freely, a person ate a marshmallow without a S'more, and people did not argue. The amount of S'mores made that morning was 100. How many hot marshmallows were left?

- all hot marshmallows and marshmallows of chocolate bars
- 100 marshmallows left of marshmallows
- 100 marshmallows

Critical Thinking Questions

- If there were a million hot S'more makers, how many S'mores could they make under conditions they would be made to argue with all of the graham crackers?
