Handbook of Research on Recent Developments in Materials Science and Corrosion Engineering Education

Lim, Hwee Ling, 2015-02-28 The latest research innovations and enhanced technologies have altered the discipline of materials science and engineering As a direct result of these developments new trends in Materials Science and Engineering MSE pedagogy have emerged that require attention The Handbook of Research on Recent Developments in Materials Science and Corrosion Engineering Education brings together innovative and current advances in the curriculum design and course content of MSE education programs Focusing on the application of instructional strategies pedagogical frameworks and career preparation techniques this book is an essential reference source for academicians engineering practitioners researchers and industry professionals interested in emerging and future trends in MSE training and education **Unique World Records 2016** Unique World Records, 2016-12-25 **DISCLAIMER** Unique World Records exists for a noble cause The content published here is for reaching out to Potential people for encouraging them to display their hidden talent globally The information provided is unique by our best efforts and may resemble to certain entities due to similar nature of Record Breaking By visiting this site you acknowledge and are bound to agree that your use of this Site and the Services found at this Site including any content will comply with this Agreement that any action relating to or arising out of this Agreement shall be subject to Bathinda Jurisdiction and you hereby consent to and waive all defences of lack of personal jurisdiction and forum non convenience with respect to Bathinda jurisdiction Unique World Records is not obligated to designate world record status to any submission as the decision is based on their belief in supporting evidence and or relevance of their claim Unique World Records policy try to find records that are reproducible breakable and based on skill Freak strange and unusual anomalies are not world records Stunts involving luck or uncontrolled danger should not be submitted **Unique World Records 2017** Unique World Records Limited, 2017-12-25 **DISCLAIMER** Unique World Records exists for a noble cause The content published here is for reaching out to Potential people for encouraging them to display their hidden talent globally The information provided is unique by our best efforts and may resemble to certain entities due to similar nature of Record Breaking By visiting this site you acknowledge and are bound to agree that your use of this Site and the Services found at this Site including any content will comply with this Agreement that any action relating to or arising out of this Agreement shall be subject to Bathinda Jurisdiction and you hereby consent to and waive all defences of lack of personal jurisdiction and forum non convenience with respect to Bathinda jurisdiction Unique World Records is not obligated to designate world record status to any submission as the decision is based on their belief in supporting evidence and or relevance of their claim Unique World Records policy try to find records that are reproducible breakable and based on skill Freak strange and unusual anomalies are not world records Stunts involving luck or uncontrolled danger should not be submitted The Patient Will See You Now Eric Topol, 2016-10-25 The essential guide by one of America s leading doctors

to how digital technology enables all of us to take charge of our health A trip to the doctor is almost a guarantee of misery You ll make an appointment months in advance You ll probably wait for several hours until you hear the doctor will see you now but only for fifteen minutes Then you ll wait even longer for lab tests the results of which you ll likely never see unless they indicate further and more invasive tests most of which will probably prove unnecessary much like physicals themselves And your bill will be astronomical In *The Patient Will See You Now* Eric Topol one of the nation s top physicians shows why medicine does not have to be that way Instead you could use your smartphone to get rapid test results from one drop of blood monitor your vital signs both day and night and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor all at a small fraction of the cost imposed by our modern healthcare system The change is powered by what Topol calls medicine s Gutenberg moment Much as the printing press took learning out of the hands of a priestly class the mobile internet is doing the same for medicine giving us unprecedented control over our healthcare With smartphones in hand we are no longer beholden to an impersonal and paternalistic system in which doctor knows best Medicine has been digitized Topol argues now it will be democratized Computers will replace physicians for many diagnostic tasks citizen science will give rise to citizen medicine and enormous data sets will give us new means to attack conditions that have long been incurable Massive open online medicine where diagnostics are done by Facebook like comparisons of medical profiles will enable real time real world research on massive populations There s no doubt the path forward will be complicated the medical establishment will resist these changes and digitized medicine inevitably raises serious issues surrounding privacy Nevertheless the result better cheaper and more human health care will be worth it Provocative and engrossing *The Patient Will See You Now* is essential reading for anyone who thinks they deserve better health care That is for all of us

The Meritocracy Trap Daniel Markovits, 2019 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite

universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people *The Country Gentleman* ,1910 *The Paper Industry* ,1923
