5s A Visual Control System For The Workplace

Rosina Ehmman

5s A Visual Control System For The Workplace:

5S Edward Moulding,2010-04-01 5S A Visual Control System for the Workplace gives a self study program for a commonsense low cost approach to process management by providing a method for organizing a workplace especially a shared workplace such as a workshop or an office space and keeping it organized 5S is often referred to as being housekeeping however this characterization can be misleading as workplace organization goes far beyond just housekeeping The key targets of 5S are improved workplace morale safety and efficiency achieved by assigning everything that is needed a location time is not wasted by looking for things Additionally it is quickly obvious when something is missing from its designated location By deciding what should be kept where it should be kept how it should be stored the benefits of this methodology become apparent and most importantly how the new order will be maintained This decision making process usually comes from a dialog about standardization which builds a clear understanding between employees of how work should be done It also instills a sense ownership of the process in each employee
